		SAFETY DATA SHEET		B
according to regulation of Europian parliament and Council (ES) number 1907/2006 according Committee regulation (EU) number 878/2020				AUSTIS
Date of Revisio		16. 08. 2023	Version number: 1 Replaces version: -	No. of pages: 9
Product	name:	ETERNAL NA BETON KOMFORT - co	omponent B	
1.	Section 1	I: Identification of substance/mixture and of the company	/undertaking	
1.1	Product id		ETERNAL NA BETON KOMFOR	Г - component В
	UFI code	:	1336-0TQP-W611-NCTF	
1.2		identified uses of the substance or mixture and uses advised	against:	
1.2.1	Relevant identified use: Life cycle phases:		DW (wide use by professionals b	
	Usage Na		PW (wide use by professionals - b C (consumer use) SU0	asic)
	-	age description:	Component B - two component ep	any costing (apoyy base)
		escription:	PC9a; PC15	loxy coaling (epoxy base)
	Name of Contributing Activity:		roller or brush application	
			non-industrial spraying techniques	
	Contribut	ing activity description:	PROC10 PROC11	
	More info	rmation:	technical function of the product in this use:	epoxy coating (epoxy base)
			quantity to be used:	0 - 10 t / yr
			Regulatory status by use: a limited number of devices for this use:	No No
			the subsequent period of application relevant to this use:	12 months
			an overview of environmental release categories for each life cycle stage:	ERC2; ERC6d; ERC8c; ERC8f; ERC11a
			supplied as a mixture	
1.2.2	Uses adv	ised against:	all other uses	
1.3	Details of	the supplier of the safety data sheet:		
		and supplier:	AUSTIS a. s.	
	Adress:		K Austisu 680, 154 00 PRAHA 5	5 - Slivenec
	Fax:	e number:	+420 251 099 111 +420 251 099 112

2.		2: Hazard identification		
2.1		tion of the substance or mixture		
	Classifica	tion under Regulation 1272/2008/EU	Eye Irrit. 2; H319 Skin Irrit. 2; H315	
			Skin Sens. 1; H317	
			Aquatic Chronic 2; H411	
2.2	Label ele			
	Symbols:		GHS07	GHS09
	Signal wo	ord.		rning
	0	s a hazardous substance:	epoxy resin based on bisphenol A C14)(2,3-epoxypropyl) ether and e	and epichlorohydrin, alkyl(C12-
	Hazard S	tatement:	H319: Causes serious eye irritatio H315: Causes skin irritation. H317: May cause an allergic skin H411: Toxic to aquatic life with lor	reaction.

	Precautionary Statement:	protection. P391: Collect spillage. P305+P351+P338: IF IN EYES: R several minutes. Remove contact Continue rinsing. P302+P352: IF ON SKIN: Wash w	nment. tective clothing/eye protection/face Rinse cautiously with water for lenses, if present and easy to do. with plenty of soap and water. her by incineration in an incineration	
2.3	Other hazards:	The mixture does not meet criteria to be classified as PBT or vPvB substances. The mixture is not endocrine disruptor, nor does it contain any.		
	Other risks:	EUH205: It contains an epoxy con reaction.	nponents. May cause an allergic	
3.	Section 3: Composition / information on ingredients			
	A mixture of low molecular weight liquid epoxy resins modified with	n a mono-functional reactive solvent.		
	Mixing ratio of components A and B:	5 : 1		
3.2	Mixtures			
	Chemical name:	reaction product: (bisphenol-A + epichlorhydrin); epoxy resin (number average molecular weight < 700)	bisphenol-F, epoxy resin; number average molecular weight < 700	
	Content [%]:	< 70	< 20	
	Index number:	603-074-00-8	Not Assigned	
	CAS:	25068-38-6	9003-36-5	
	EC number (EINECS):	500-033-5	500-006-8	
	REACH Registration number:	01-2119456619-26-00XX	Not Assigned	
	Classification according to Directive 1272/2008/EU:	Eye Irrit. 2; H319 Skin Irrit. 2; H315 Skin Sens. 1; H317 Aquatic Chronic 2; H411	Eye Irrit. 2; H319 Skin Irrit. 2; H315 Skin Sens. 1; H317 Aquatic Chronic 2; H411	
	Specific concentration limits, M-factors:	Eye Irrit. 2: C ≥ 5 % Skin Irrit. 2: C ≥ 5 %	Not Assigned	
	Chemical name:	Oxirane, mono[(C12-14- alkyloxy)methyl] derivs.		
	Content [%]:	< 20		
	Index number:	603-103-00-4		
	CAS:	68609-97-2		
	EC number (EINECS):	271-846-8		
	REACH Registration number:	01-2119485289-22-00XX		
	Classification according to Directive 1272/2008/EU:	Skin Irrit. 2; H315 Skin Sens. 1; H317		
	Specific concentration limits, M-factors:	Not Assigned		
	Full text of H - phrases in Section 16			
4.	Section 4: First aid measures			
4.1	Description of first aid measures			
	When providing first aid it is necessary to ensure safety of both vid must be kept in mental and physical rest. Victim must be kept war sheet with information about substance or mixture with you in case Inhalation: Break exposure, move to fresh air protecting the victim breath or other symptoms persist.	m and must not get chilled. Take original e of medical examination.	container with label or safety data	
	When on skin: Put away contaminated clothes and shoes, wash the contaminated spot with plenty of tepid water; if the skin is not irritated, soap can be used; seek doctor's advice, especially if the skin stays irritated.			
	Eye Contact: Rinse eyes with plenty of water (10 to 15 min). Keep eyes open (even by force if necessary). If the victim is wearing contact lenses remove them immediately. Seek medical attention. Ingestion: Do not induce vomiting! Drink at least 0.5 liters of water with 5 to 10 tablets of crushed charcoal. In case of nausea contact the			
	Toxicology Information Centre for need of medical treatment with i SDS.			
4.2	Most important symptoms and effects, both acute and delayed			
	The product may have adverse effects through inhalation and if sv	vallowed. It can irritate skin, mucous mem	branes and eyes.	
4.3	Indication of any immediate medical attention and special treatme	nt needed:	Symptomatic treatment	

 5. Section 5: Fire-fighting measures 5.1 Extinguishing media Suitable extinguishing media: The product is not inflammable. Water spray (water mist), foam, carbon dioxide, dry powder. Unsuitable extinguishing media: The strong water current. It can be spread fire. 5.2 Specific danger linked to the substance or mixture: Upon evaporation of the liquid element the residue burns and emits a thick b smoke (CO, CO₂, soot). Inhaling products during decomposition may endanger life. 5.3 Advice for firefighters: wear a breathing apparatus and protective clothing. 6. Section 6: Accidental release measures 6.1 Personal precautions, protective equipment and emergency procedures: Appropriate protective gloves, goggles, appropriate clo respirator. 6.1.1 For workers except for those intervening in emergency cases - instructions in case of accidental spill and leak of substance or m a) use of appropriate protection (including personal protective equipment according to part 8 BL), in order to avoid any skin, eye clothing contamination; b) removing possible sources of ignition, providing proper ventilation, control of dust - not relevant c) emergency measures, for example necessary evacuation from dangerous area or consultation with an expert - not relevant 6.1.2 For workers intervening in emergency cases - instructions for appropriate materials of personal protective suits (see part 8 BL) 6.2 Environmental precautions: Prevent environmental pollution - leakage into drains, surface water, groundwater or soil. 6.3 Methods and materials for limitation of leaks and for cleaning: 	othing, or nixture:	
 Suitable extinguishing media: The product is not inflammable. Water spray (water mist), foam, carbon dioxide, dry powder. Unsuitable extinguishing media: The strong water current.  5.3 Advice for firefighters: wear a breathing apparatus and protective clothing. 6. Section 6: Accidental release measures 6.1 Personal precautions, protective equipment and emergency procedures: Appropriate protective gloves, goggles, appropriate clor respirator. 6.1.1 For workers except for those intervening in emergency cases - instructions in case of accidental spill and leak of substance or m a) use of appropriate protection (including personal protective equipment according to part 8 BL), in order to avoid any skin, eyer clothing contamination; b) removing possible sources of ignition, providing proper ventilation, control of dust - not relevant c) emergency measures, for example necessary evacuation from dangerous area or consultation with an expert - not relevant 6.1.2 For workers intervening in emergency cases - instructions for appropriate materials of personal protective suits (see part 8 BL) 6.2 Environmental precautions: Prevent environmental pollution - leakage into drains, surface water, groundwater or soil. 	nixture:	
 6. Section 6: Accidental release measures 6.1 Personal precautions, protective equipment and emergency procedures: Appropriate protective gloves, goggles, appropriate clor respirator. 6.1.1 For workers except for those intervening in emergency cases - instructions in case of accidental spill and leak of substance or m a) use of appropriate protection (including personal protective equipment according to part 8 BL), in order to avoid any skin, eyer clothing contamination; b) removing possible sources of ignition, providing proper ventilation, control of dust - not relevant c) emergency measures, for example necessary evacuation from dangerous area or consultation with an expert - not relevant 6.1.2 For workers intervening in emergency cases - instructions for appropriate materials of personal protective suits (see part 8 BL) 6.2 Environmental precautions: Prevent environmental pollution - leakage into drains, surface water, groundwater or soil. 	nixture:	
 6.1 Personal precautions, protective equipment and emergency procedures: Appropriate protective gloves, goggles, appropriate clorrespirator. 6.1.1 For workers except for those intervening in emergency cases - instructions in case of accidental spill and leak of substance or ma) use of appropriate protection (including personal protective equipment according to part 8 BL), in order to avoid any skin, eye clothing contamination; b) removing possible sources of ignition, providing proper ventilation, control of dust - not relevant c) emergency measures, for example necessary evacuation from dangerous area or consultation with an expert - not relevant 6.1.2 For workers intervening in emergency cases - instructions for appropriate materials of personal protective suits (see part 8 BL) 6.2 Environmental precautions: Prevent environmental pollution - leakage into drains, surface water, groundwater or soil. 	nixture:	
 respirator. 6.1.1 For workers except for those intervening in emergency cases - instructions in case of accidental spill and leak of substance or ma) use of appropriate protection (including personal protective equipment according to part 8 BL), in order to avoid any skin, eye clothing contamination; b) removing possible sources of ignition, providing proper ventilation, control of dust - not relevant c) emergency measures, for example necessary evacuation from dangerous area or consultation with an expert - not relevant 6.1.2 For workers intervening in emergency cases - instructions for appropriate materials of personal protective suits (see part 8 BL) 6.2 Environmental precautions: Prevent environmental pollution - leakage into drains, surface water, groundwater or soil. 	nixture:	
 6.1.1 For workers except for those intervening in emergency cases - instructions in case of accidental spill and leak of substance or ma) use of appropriate protection (including personal protective equipment according to part 8 BL), in order to avoid any skin, eye clothing contamination; b) removing possible sources of ignition, providing proper ventilation, control of dust - not relevant c) emergency measures, for example necessary evacuation from dangerous area or consultation with an expert - not relevant 6.1.2 For workers intervening in emergency cases - instructions for appropriate materials of personal protective suits (see part 8 BL) 6.2 Environmental precautions: Prevent environmental pollution - leakage into drains, surface water, groundwater or soil. 		
 a) use of appropriate protection (including personal protective equipment according to part 8 BL), in order to avoid any skin, eyes clothing contamination; b) removing possible sources of ignition, providing proper ventilation, control of dust - not relevant c) emergency measures, for example necessary evacuation from dangerous area or consultation with an expert - not relevant 6.1.2 For workers intervening in emergency cases - instructions for appropriate materials of personal protective suits (see part 8 BL) 6.2 Environmental precautions: Prevent environmental pollution - leakage into drains, surface water, groundwater or soil. 		
 c) emergency measures, for example necessary evacuation from dangerous area or consultation with an expert - not relevant 6.1.2 For workers intervening in emergency cases - instructions for appropriate materials of personal protective suits (see part 8 BL) 6.2 Environmental precautions: Prevent environmental pollution - leakage into drains, surface water, groundwater or soil. 		
 6.1.2 For workers intervening in emergency cases - instructions for appropriate materials of personal protective suits (see part 8 BL) 6.2 Environmental precautions: Prevent environmental pollution - leakage into drains, surface water, groundwater or soil. 		
6.2 Environmental precautions: Prevent environmental pollution - leakage into drains, surface water, groundwater or soil.		
6.3 Methods and materials for limitation of leaks and for cleaning:		
6.3.1 Instructions for leak limitation of spilled substance or mixture		
a) enclose the spilled mixture, cover the canalization;		
b) seal the damaged package		
6.3.2 Instructions for removal of spilled substance or mixture		
Absorb with appropriate agent, hand over to authorized person for disposal.		
6.4 Reference to other sections: See also section 7., 8 and 13.		
7. Section 7: Handling and storage		
 7. Section 7: Handling and storage 7.1 Measures for safe manipulation: 		
7.1.1 Recomendations:		
 a) Workers handeling the product have to get familiar with health and safety rules for work and have to obey these rules. Secure 	e escape routs	
(enclosing of leaked mixture, sealing of demaged packages and so on), for fire prevention (remove ignition sources, non-sparklin on) and limit the production of aerosol and dust.	•	
b) Obey measures for prevention of manipulation with incompatible substances or mixtures (see part 10) in common areas.		
c) Store in original closed packages in temperature from +5 to +25 °C, do not expose to temperature under 0 °C (not even in she not expose to direct sunlight or other heat sources.	ort term). Do	
d) Prevent the contamination of environment, i.e. leak into canalization, surface or underground water and soil.		
7.1.2 Instructions for general hygiene of work:		
a) Do not eat, drink or smoke on work areas.		
b) After working with product wash your hands with soap and water, eventualy use regeneration hand cream.		
c) Before entering dining areas, remove contaminated clothing and protective equipment.		
Conditions for safe storage of substances and mixtures including incompatible substances and mixtures: Store in dry and well-ventilated storages in original closed packages in temperatures from +5 to +25 °C, do not expose to temperature under 0 °C (not even in short term). Do not expose to direct sunlight or other heat sources. Prevent any contact with oxidazing substances, strong acids and bases. Do not store with food, drinks and feed. The product is not a flamable liquid according to ČSN 65 0201. Specific end use: see part 1.2; coating procedure and recomendations are listed in technical list of the product, or in other product		
7.3 Specific end use: see part 1.2; coating procedure and recomendations are listed in technical list of the product, or in other product documentation.		
 Section 8: Exposure controls / personal protection Control parameters: 		
8.1 Control parameters: Exposure limits EH40/2005 (WELs): Not Assigned		
reaction product: (bisphenol-A + epichlorhydrin); epoxy resin (number average molecular weight < 700) (ES: 500-033-5)	۱.

Exposure controls	working with the product. Contaminated work dethes can be revead
Ensure adequate ventilation. Ensure protective equipment is worn while after thorough cleaning. Wash your hands and face with soap and water	
Appropriate engineering controls: Observe the usual precautions to prote	ect the health and well-ventilated.

8.2.2 Individual protection measures, such as personal protective equipment:

8.2

Occupational exposure is governed by Directive 89/686/EEC therefore any use of personal protective equipment must be in accordance with this Regulation.

a) Eyes and face protection: Suitable safety goggles (EN 166), face shiled.

b) Skin protection: Common safety clothing with long sleave and shoes; take of the contaminated clothing and wash your skin with soap and water.

b-1) Hands protection: suitable protective gloves (made from rubber - according to EN 374), wash your hands with soap and water after work, c) Airways protection: with proper area ventilation not required. When spraying, face half-shiled is recomended for gass filtration (EN 405) or quarter-shiled with gass filter (EN 140, EN 141).

d) Heat hazard: Special attention must be paid to construction of personal protective measures, when specifying protective measures for protection against materials, which are considered to be heat hazard. Not relevant for this product.

8.2.3 Environmental exposure controls: Avoid infiltration of surface and groundwater and soil.

9.	Section 9: Physical and chemical properties		
9.1.	Information on basic physical and chemical properties		
	a) State	viscous liquid	
	b) Color	clear colorless to yellowish liquid characteristic	
	c) Odour: Odor threshold:	Not specified	
	d) Melting/Freezing point (temperature range) (°C):	Not specified	
	e) Boiling point or initial boiling point and boiling range (°C)	> 200	
	f) Combustibility:	non-flammable liquid	
	g) Explosion limints: upper limit (% volume):	Not specified	
	lower limit (% volume):	Not specified	
	h) Point of ignition:	> 150 °C	
	i) Temperature of self-ignition:	Not specified	
	j) Temperature of decomposition (°C):	Not specified	
	k) pH (23 °C)	approximately 6 - 8 (Mixture A + B)	
	I) Kinematic viscosity:	Not specified	
	m) Solubility (23 °C)		
	- with water:	unlimited miscibility with water	
	- with fats:	Not specified	
	n) Partition coefficient n - octanol/water:	Not specified	
	o) Steam pressure (20 °C):	< 0,01 Pa	
	p) Density and/or relative density (20 °C):	approximately 1,12 g.cm ⁻³	
	q) Relative viscosity of steam (at °C):	Not specified	
9.2	r) Particles characteristics: Other information:	Not specified	
9.2.1	Information about class of physical hazard:	not relevant	
9.2.2	Other safety characteristics		
	Evaporation rate:	Not specified	
	Dynamic viscosity:	Not specified	
	Explosive properties:	Not specified	
	Oxidizing properties:	Not specified	
	VOC (Mixture A + B)	3 g/L	
10.	Section 10: Stability and reactivity		
	Product is stable under recommended storage and handling condition		
10.1	Reactivity: Product is not reactive under recommended storage and	-	
10.2	Chemical stability: Product is stable under recommended storage a	-	
10.3	Possibility of hazardous reactions: In case of contact with strong acids and bases, oxidizing agents and amines.		
10.4	storage temperature reduce life of the product.	ause degradation of the product. Temperatures above recommended	
10.5	Incompatible materials: Substances reacting with water, strong acid contact with amines.	ds and bases, oxidizing agents, isocyanates, anhydrides, uncontrolled	
10.6	Hazardous Decomposition Products: Carbon monoxide and dioxide burning.	e, hydrogen chloride and indefinable organic mixtures may form during	
11.	Section 11: Toxicological information		
11.1	Information about hazard classes acording to (ES) č. 1272/2008		
	a) acute toxicity:	the classification cirteria are not met based on avilable information	
	- LD ₅₀ , oral, rat (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information	
	- LD ₅₀ , dermal, rat or rabbit (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information	
	- LC ₅₀ , inhalation, rat, for aerosols or particles (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information	
	 LC₅₀, inhalation, rat, for gases and vapours (mg.kg⁻¹): b) corrosivity/skin irritation: 	the classification cirteria are not met based on avilable information Causes skin irritation.	
	c) serious eye damage / eyes irritation:	Causes serious eye irritation.	
	d) sensitivity of airways / sensitivity of skin:	May cause an allergic skin reaction.	
	e) germ cells mutagenicity:	the classification cirteria are not met based on avilable information	
	f) carcinogenicity:	the classification cirteria are not met based on avilable information	
	g) toxicity for reproduction:	the classification cirteria are not met based on avilable information	
	h) toxicity for specific organs - single exposure:	the classification cirteria are not met based on avilable information	
I	i) toxicity for specific organs - multiple exposures:	the classification cirteria are not met based on avilable information	

	j) hazards while inhaled:	the classification cirteria are not met based	d on avilable informatio
	Human experience:	No detrimental effects were found upon co prescribed safety measures.	mpliance with the
	Tests on animals:	Were not performed	
1.1.1	Information for each hazard class or breakdown:	see above	
.1.2	Toxicological properties of mixture	not avilable	
	epoxy resin of bisphenol A and epichlorohydrin, average molecular	see part 8	
	weight <700 (ES: 500-033-5), bisphenol F - epoxy resin, average molecular weight <700 (ES: 500-006-8) and oxirane, mono [(C12 -14- alkyloxy) methyl] derivatives (ES: 271-846-8).		
1.1.3	If enough information from substance/mixture trials exist, it might be necessary to sum up results of used studies, for example according to exposure run	not relevant	
1.1.4	If the classification criteria are not met for specific hazard class, information explaining the justification should be stated.	relevant concentration limits were not exce	eded
1.1.5	Information about likely exposure run	no effects on human health are known	
1.1.6	Symptoms corresponding to physical, chemical and toxicological features	no effects on human health are known	
1.1.7	Belated and immediate effects and chronical effects of short/long term exposure	no effects on human health are known	
1.1.8	Interactive effects	unknown	
1.1.9	Lack of specific data	not relevant	
	Mixtures	see part 8	
1.1.11	Mixtures information compared to substance information		
	1) Substances in the mixture can react with each other inside of a body a	and can cause different levels of absorption	metabolism and
	2) It is necessary to consider, if concentration of each substance is sufficient.	· · · · · ·	
	 a) if the information are doubled, they are listed only once for a substance as a whole, for example when two different substances are causing vomiting and diarrhea; 	Not relevant for this mixture.	
	 b) if it is not likely the effects will appear with current concentrations, for example when weak irritating substance is disolved in non-irritating solution to a level under certain concentration; 	Not relevant for this mixture.	
	c) if the information about mutual effects of substances in the mixture are unavilable, no assumptions will be listed and instead effects on	see part 8	
	healtf of each substance will be listed.

13.	Section 13: Disposal considerations		
13.1	Methods of waste management:		
	a) Appropriate methods of substance, mixture and contaminated packag	ing disposal: Product remnants and	packaging with product remnants
	must be incinerated in a hazardous waste incinerator or kept at a hazard	ous waste landfill.	
	b) Physical / chemical properties that can affect means of waste handling	g: Both A and B components are liqu	uids that are freely miscible with
	water, after mixing and curing these behave as solid.		
	c) Avoidance of disposal through sewer: It is necessary to prevent leakage		ed mixture into drains.
	d) Special precautions for the recommended waste management: Avoid	contact with skin and eyes.	
14.	Section 14: Transport information

15.	Section 15: Regulatory information		
15.1	Safety, health and environmental regulations/legislation specific for the s		
	Regulation of the European Parliament and Council Regulation (EC) No		ion, Evaluation, Authorisation and
	Restriction of Chemicals establishing a European Chemicals Agency, as	amenueu	

Regulation of the European Parliament and Council Regulation (EC) No 1272/2008 (CLP) as amended

L

Commision directive (EU) No. 878/2020 EH40/2005 Workplace exposure limits (second edition, published 2011). Containing the list of workplace exposure limits for use with the Control of Substances Hazardous to Health Regulations (as amended)

15.2 Assessment chemical safety of mixture:

Were not performed

16. Section 16: Other informations

Information stated in this safety data sheet is based on the current knowledge of EU legislation. It is recommendation in terms of health and safety as well as recommendation related to ecological matters that are essential to safe usage of the product.

a) New edition.

b) key or legend for abbreviations and accronyms used in the safety data sheet:

LD₅₀ The lethal dose for 50 % mortality of the test population relative to a control sample.

- LC_{50} Lethal concentration for 50 % mortality of the test population relative to a control sample.
- EC_{50} Effective concentration for 50 % mortality of the test population relative to a control sample.
- EC₁₀ Effective concentration for 10 % mortality of the test population relative to a control sample.
- Inhibitory concentration to reduce the growth or growth rate of 50% of the test population relative to a control sample.
- LL₅₀ Lethal loading doses of test substance resulting in 50% mortality
- EL₅₀ Effective loading doses of test substance resulting in 50% mortality
- PBT Persistent, bioaccumulative and toxic substances.
- vPvB Very persistent and very bioaccumulative substances.
- DNEL Derived No Effect Level derived concentration of the substance without adverse effects
- DMEL Derived Minimum Effect Level derived minimum level at which the adverse effects
- NOAEL No Observed Adverse Effect Level no negative effect was observed
- PNEC Predicted No Effect Concentration an estimate of the concentration of the substance without adverse effects
- NOELR No Observed Effect Loading Rate dosage rate without observed effect
- NOEC No Observed Effect Concentration concentration without observed effect
- NOEL No Observed Effect Level level without observed effect
- LOEC Lowest Observed Effect Concentration lowest concentrations with observable effects
- ADR European Agreement concerning the international carriage of dangerous goods by road.
- RID Regulations concerning the international carriage of dangerous goods by rail.
- IMDG International maritime code of dangerous goods.
- ICAO The International Civil Aviation Organization.
- IATA International Air Transport Association.

GHS Globally Harmonized System of Classification and Labelling of Chemical substances.

c) important references to literature and data sources

Initial data sources are safety data sheets of the inherent (components).

d) in case of mixture, statement about evaluation method used for classification according to article 9 of directive (ES) number 1272/2008 For evaluation purposes, principles of extrapolation were used. Calculation methods.

e) List of H-sentences, whose full form is not listed in other parts.

- H315 Causes skin irritation.
- H317 May cause an allergic skin reaction.
- H319 Causes serious eye irritation.
- H411 Toxic to aquatic life with long lasting effects.

Guidelines for training:

As required by national legislation.

Recommended restrictions on use (i. e. non-statutory recommendations by supplier):

Product should not be used for other purposes than specified (see section 1.2). Because specific conditions of use are beyond supplier's control it is responsibility of the user to adapt notifications to local law and regulations. Safety information describe the product with regard to safety and can not be considered technical information about the product.

First edition.
