SAFETY DATA SHEET according to regulation of Europian parliament and Council (ES) number 1907/2006 according Committee regulation (EU) number 878/2020 03. 02. 2022 Date of Issue: Version number: 1 No. of pages: Revision date: Replaces version: SANAKRYL TOP Product name: 1. Section 1: Identification of substance/mixture and of the company/undertaking 1.1 SANAKRYL TOP Product identifier: The product is not a nanoform, nor does it contain any nanoforms. UFI code: not relevant 1.2 Relevant identified uses of the substance or mixture and uses advised against: 1.2.1 Relevant identified use: Life cycle phases: PW (wide use by professionals - basic) C (consumer use) Usage Name: SU0 Other usage description: Waterproofing material Market description: PC1; PC9a; PC15 Contributing Activity Name: roller or brush application non-industrial spraying techniques Contributing activities descriptor: PROC10 PROC11 More information: technical function of the product in Waterproofing material this use: 0 - 10 t / yr quantity to use: Regulatory status by use: No a limited number of devices for No this use: the subsequent period of use 24 months relevant to this use: ERC2; ERC8c; ERC8f; ERC10a; an overview of environmental ERC11a release categories for each life cycle stage: supplied as a mixture 1.2.2 Uses advised against: all other uses 1.3 Details of the supplier of the safety data sheet: Producer and supplier: AUSTIS a. s. K Austisu 680, 154 00 PRAHA 5 - Slivenec Adress: Telephone number: +420 251 099 111 Fax: +420 251 099 112 austis@austis.cz e-mail 1.4 +420 725 491 378 Emergency telephone number: +420 251 099 247 Centre of the Toxicologicaly information Na Bojišti 1, 120 00 Prague 2, Tel.: +420 224 919 293 CZ 2. Section 2: Hazard identification 2.1 Classification of the substance or mixture The mixture is classified as dangerous for the environment. Classification under Regulation 1272/2008/EU Aquatic Chronic 3; H412 2.2 Label elements Symbols: No symbols is used Signal word: No signal word is used It contains a hazardous substance: Terbutryn, octhilinone (ISO) H412: Harmful to aquatic life with long lasting effects. Hazard Statement: P273: Avoid release to the environment. Precautionary Statement: P501: Dispose of contents/container by incineration in an incineration or disposal of hazardous waste in landfills for hazardous waste. 2.3 Other hazards: The mixture does not meet criteria to be classified as PBT or vPvB substances. The mixture is not endocrine disruptor, nor does it contain any.

Section 3: Composition / information on ingredients			
A mixture of an aqueous dispersion of acrylic resins, pigments, fillers and additives.			
Mixtures Chemical name: Titanium dioxide Terbutryn			
	0 - 25	Terbutryn < 0,004	
Content [%]:			
Index number:	022-006-00-2	Not Assigned	
CAS:	13463-67-7	886-50-0	
EC number (EINECS):	236-675-5	212-950-5	
REACH Registration number:	01-2119489379-17-0XXX	Not Assigned	
Classification according to Directive 1272/2008/EU:	Carc. 2; H351 (inhalation)	Acute Tox. 4; H302 Skin Sens. 1; H317 Aquatic Acute 1; H400 Aquatic Chronic 1; H410	
Specific concentration limits, M-factors:	Not Assigned	Skin Sens. 1; H317: C ≥ 3 % M = 100 (Acute) M = 100 (Chronic)	
	Note 10: The classification as a carcinogen by inhalation applies only to mixtures in powder form containing 1 % or more of titanium dioxide which is in the form of or incorporated in particles with aerodynamic diameter \leq 10 µm.	3	
Chemical name:	octhilinone (ISO)	Mixture CMIT/MIT (3:	
Content [%]:	< 0,0015	< 0,0015	
Index number:	613-112-00-5	613-167-00-5

4. Section 4: First aid measures

4.1 Description of first aid measures

When providing first aid it is necessary to ensure safety of both victim and person rescuing. It is necessary to avoid chaotic behavior. Victim must be kept in mental and physical rest. Victim must be kept warm and must not get chilled. Take original container with label or safety data sheet with information about substance or mixture with you in case of medical examination.

Inhalation: Break exposure, move to fresh air protecting the victim from cold. Provide medical treatment especially if coughing, shortness of breath or other symptoms persist.

When on skin: Put away contaminated clothes and shoes, wash the contaminated spot with plenty of tepid water; if the skin is not irritated, soap can be used; seek doctor's advice, especially if the skin stays irritated.

Eye Contact: Rinse eyes with plenty of water (10 to 15 min). Keep eyes open (even by force if necessary). If the victim is wearing contact lenses remove them immediately. Seek medical attention.

Ingestion: Do not induce vomiting! Drink at least 0.5 liters of water with 5 to 10 tablets of crushed charcoal. In case of nausea contact the Toxicology Information Centre for need of medical treatment with information about composition of the mixture from the original container or SDS Most important symptoms and effects, both acute and delayed 4.2 The product may have adverse effects through inhalation and if swallowed. It can irritate skin, mucous membranes and eyes. 4.3 Indication of any immediate medical attention and special treatment needed: Symptomatic treatment 5. Section 5: Fire-fighting measures 5.1 Extinguishing media Suitable extinguishing media: The product is not inflammable. Water spray (water mist), foam, carbon dioxide, dry powder. Unsuitable extinguishing media: The strong water current. It can be spread fire. 5.2 Specific danger linked to the substance or mixture: Carbon monoxide and dioxide and carbon black can be produced while burning. 5.3 Advice for firefighters: wear a breathing apparatus and protective clothing. 6 Section 6: Accidental release measures 6.1 Personal precautions, protective equipment and emergency procedures: Appropriate protective gloves, goggles, appropriate clothing, or respirator. 6.1.1 For workers except for those intervening in emergency cases - instructions in case of accidental spill and leak of substance or mixture: a) use of appropriate protection (including personal protective equipment according to part 8 BL), in order to avoid any skin, eyes or personal clothing contamination; b) removing possible sources of ignition, providing proper ventilation, control of dust - not relevant c) emergency measures, for example necessary evacuation from dangerous area or consultation with an expert - not relevant 6.1.2 For workers intervening in emergency cases - instructions for appropriate materials of personal protective suits (see part 8 BL) 6.2 Environmental precautions: Prevent environmental pollution - leakage into drains, surface water, groundwater or soil. 6.3 Methods and materials for limitation of leaks and for cleaning: 6.3.1 Instructions for leak limitation of spilled substance or mixture a) enclose the spilled mixture, cover the canalization; b) seal the damaged package 6.3.2 Instructions for removal of spilled substance or mixture Absorb with appropriate agent, hand over to authorized person for disposal. 6.4 Reference to other sections: See also section 7., 8 and 13. 7. Section 7: Handling and storage 7.1 Measures for safe manipulation: 7.1.1 Recomendations: a) Workers handeling the product have to get familiar with health and safety rules for work and have to obey these rules. Secure escape routs (enclosing of leaked mixture, sealing of demaged packages and so on), for fire prevention (remove ignition sources, non-sparkling tools and so on) and limit the production of aerosol and dust. b) Obey measures for prevention of manipulation with incompatible substances or mixtures (see part 10) in common areas. c) Store in original closed packages in temperature from +5 to +25 °C, do not expose to temperature under 0 °C (not even in short term). Do not expose to direct sunlight or other heat sources. d) Prevent the contamination of environment, i.e. leak into canalization, surface or underground water and soil. 7.1.2 Instructions for general hygiene of work: a) Do not eat, drink or smoke on work areas. b) After working with product wash your hands with soap and water, eventualy use regeneration hand cream. c) Before entering dining areas, remove contaminated clothing and protective equipment. 7.2 Conditions for safe storage of substances and mixtures including incompatible substances and mixtures: Store in dry and well-ventilated storages in original closed packages in temperatures from +5 to +25 °C, do not expose to temperature under 0 °C (not even in short term). Do not expose to direct sunlight or other heat sources. Prevent any contact with oxidazing substances, strong acids and bases. Do not store with food, drinks and feed. The product is not a flamable liquid according to ČSN 65 0201. 7.3 Specific end use: see part 1.2; coating procedure and recomendations are listed in technical list of the product, or in other product documentation. 8. Section 8: Exposure controls / personal protection 8.1 Control parameters: Exposure limits EH40/2005 (WELs): Not Assigned 8.2 Exposure controls Ensure adequate ventilation. Ensure protective equipment is worn while working with the product. Contaminated work clothes can be reused after thorough cleaning. Wash your hands and face with soap and water after use. Do not eat, drink or smoke while working with the product. 8.2.1 Appropriate engineering controls: Observe the usual precautions to protect the health and well-ventilated. 8.2.2 Individual protection measures, such as personal protective equipment: Occupational exposure is governed by Directive 89/686/EEC therefore any use of personal protective equipment must be in accordance with this Regulation. a) Eyes and face protection: Suitable safety goggles (EN 166), face shiled.

b) Skin protection: Common safety clothing with long sleave and shoes; take of the contaminated clothing and wash your skin with soap and water.

b-1) Hands protection: suitable protective gloves (made from rubber - according to EN 374), wash your hands with soap and water after work, c) Airways protection: with proper area ventilation not required. When spraying, face half-shiled is recommended for gass filtration (EN 405) or quarter-shiled with gass filter (EN 140, EN 141).

d) Heat hazard: Special attention must be paid to construction of personal protective measures, when specifying protective measures for protection against materials, which are considered to be heat hazard. Not relevant for this product.

8.2.3 Environmental exposure controls: Avoid infiltration of surface and groundwater and soil.

9.	Section 9: Physical and chemical properties		
9.1.	Information on basic physical and chemical properties		
	a) State	viscous liquid	
	b) Color	color shown on the cover	
	c) Odour:	characteristic	
	Odor threshold:	Not specified	
	d) Melting/Freezing point (temperature range) (°C):	approximately 0	
	e) Boiling point or initial boiling point and boiling range (°C)	approximately 100	
	f) Combustibility:	non-flammable liquid	
	g) Explosion limints: upper limit (% volume):	Not specified	
	lower limit (% volume):	Not specified	
	h) Point of ignition:	Not specified	
	i) Temperature of self-ignition:	Not specified	
	j) Temperature of decomposition (°C):	Not specified	
	k) pH (23 °C)	8,0 - 10,0	
	I) Kinematic viscosity:	Not specified	
	m) Solubility (23 °C)		
	- with water:	unlimited miscibility	
	- with fats:	Not specified	
	n) Partition coefficient n - octanol/water:	Not specified	
	o) Steam pressure (20 °C):	2,3 kPa	
	p) Density and/or relative density (20 °C):	approximately 1,4 g.cm ⁻³	
	q) Relative viscosity of steam (at °C):	Not specified	
	r) Particles characteristics:	Not specified	
9.2	Other information:		
9.2.1	Information about class of physical hazard:	is not relevant	
9.2.2	Other safety characteristics		
	Evaporation rate:	Not specified	
	Dynamic viscosity:	Not specified	
	Explosive properties:	Not specified	
	Oxidizing properties:	Not specified	
	VOC (g/L):	5	
10.	Section 10: Stability and reactivity		
	Product is stable under recommended storage and handling conditions.		
10.1	Reactivity: Product is not reactive under recommended storage an	nd handling conditions.	
10.2	Chemical stability: Product is stable under recommended storage	and handling conditions.	
10.3	Possibility of hazardous reactions: In case of contact with substances reacting dangerously with water.		
10.4	Conditions to avoid: Temperatures below 0 °C and above 100 °C cause degradation of the product. Temperatures above recommended storage temperature reduce life of the product.		
10.5	Incompatible materials: Substances reacting with water.		
10.6	Hazardous Decomposition Products: Carbon monoxide and dioxid	e and carbon black may form during burning.	
11.	Section 11: Toxicological information		
11.1	Information about hazard classes acording to (ES) č. 1272/2008		
	a) acute toxicity:	the classification cirteria are not met based on avilable information	
	- LD ₅₀ , oral, rat (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information	
	- LD ₅₀ , dermal, rat or rabbit (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information	
	- LC ₅₀ , inhalation, rat, for aerosols or particles (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information	
	- LC ₅₀ , inhalation, rat, for gases and vapours (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information	
	b) corrosivity/skin irritation:	the classification cirteria are not met based on avilable information	
	c) serious eye damage / eyes irritation:	the classification cirteria are not met based on avilable information	
	d) sensitivity of airways / sensitivity of skin:	the classification cirteria are not met based on avilable information	
	e) germ cells mutagenicity:	the classification cirteria are not met based on avilable information	
	f) carcinogenicity:	the elementic structure over wetween the seal on evidence information	

f) carcinogenicity:

the classification cirteria are not met based on avilable information

	g) toxicity for reproduction:	the classification cirteria are not m	net based on avilable information	
	h) toxicity for specific organs - single exposure:	the classification cirteria are not m	net based on avilable information	
	i) toxicity for specific organs - multiple exposures:	the classification cirteria are not m	net based on avilable information	
	j) hazards while inhaled:	the classification cirteria are not m	net based on avilable information	
	Human experience:	No detrimental effects were found	upon compliance with the	
		prescribed safety measures.		
	Tests on animals:	Were not performed		
11.1.1	Information for each hazard class or breakdown:	see above		
11.1.2	Toxicological properties of mixture	not avilable		
11.1.3	If enough information from substance/mixture trials exist, it might be necessary to sum up results of used studies, for example according to	not relevant		
	exposure run			
11.1.4	If the classification criteria are not met for specific hazard class, information explaining the justification should be stated.	relevant concentration limits were	not exceeded	
11.1.5	Information about likely exposure run	no effects on human health are kr	nown	
11.1.6	Symptoms corresponding to physical, chemical and toxicological features	no effects on human health are kr	nown	
11.1.7	Belated and immediate effects and chronical effects of short/long term exposure	no effects on human health are kr	IOWN	
11 1 8	Interactive effects	unknown		
	Lack of specific data	not relevant		
	(Mixtures	see part 8		
	[•] Mixtures information compared to substance information			
	1) Substances in the mixture can react with each other inside of a body a	nd can cause different levels of abs	sorption metabolism and secretion	
	2) It is necessary to consider, if concentration of each substance is suffici			
	a) if the information are doubled, they are listed only once for a	Not relevant for this mixture.		
	substance as a whole, for example when two different substances are causing vomiting and diarrhea;			
	b) if it is not likely the effects will appear with current concentrations, for	Not relevant for this mixture.		
	example when weak irritating substance is disolved in non-irritating solution to a level under certain concentration;			
	c) if the information about mutual effects of substances in the mixture are unavilable, no assumptions will be listed and instead effects on health of each substance will be listed.	see part 8		
11.1.1	2 Other information	None		
	Other hazards information	None		
	Features causing disruption of endocrinal systém	Not relevant for this mixture.		
	Additional data:	None		
		None		
12.	Section 12: Ecological information			
12.1	Toxicity	Harmful to aquatic life with long la	sting effects.	
	Acute toxicity for water organisms:	Terbutryn	Octhilinone (ISO)	
	- LC ₅₀ , 96 hours, fish (mg/kg):	1,8	0,03	
	- LC ₅₀ , 48 hours, fish (mg/kg):	7,1	0,42	
	- IC ₅₀ , 72 hours, algae (mg/kg):	0,0055	0.084	
12.2	Persistence and degradability:	Not set	-,	
12.3	Bioaccumulative potential:	Not set		
12.4	Mobility in soil:		missible with water	
12.5	Results of PBT and vPvB	It was not determined, the blend is The mixture does not meet the cri vPvB.		
12.6	Features causing disruption of endocrinal systém	Unknown for this mixture		
12.7	Other adverse effects:	See Section 2		
12.7	Additional data:	The product must not leak to surfa	ace and groundwater. Notify	
		competent authorities immediately	• •

c) important references to literature and data sources Initial data sources are safety data sheets of the inherent (components).

d) in case of mixture, statement about evaluation method used for classification according to article 9 of directive (ES) number 1272/2008

For evaluation purposes, principles of extrapolation were used. Calculation methods.

e) List of H-sentences, whose full form is not listed in other parts.		
H301	Toxic if swallowed.	
H302	Harmful if swallowed.	
H310	Fatal in contact with skin.	
H311	Toxic in contact with skin.	
H314	Causes severe skin burns and eye damage.	
H315	Causes skin irritation.	
H317	May cause an allergic skin reaction.	
H318	Causes serious eye damage.	
H319	Causes serious eye irritation.	
H330	Fatal if inhaled.	
H351	Suspected of causing cancer (inhalation).	
H400	Very toxic to aquatic life.	
H410	Very toxic to aquatic life with long lasting effects.	
H412	Harmful to aquatic life with long lasting effects.	

Guidelines for training:

As required by national legislation.

Recommended restrictions on use (i. e. non-statutory recommendations by supplier):

Product should not be used for other purposes than specified (see section 1.2). Because specific conditions of use are beyond supplier's control it is responsibility of the user to adapt notifications to local law and regulations. Safety information describe the product with regard to safety and can not be considered technical information about the product.
