4. 4.1	Section 4: First aid measures Description of first aid measures			
	When providing first aid it is necessary to ensure safety of both victim must be kept in mental and physical rest. Victim must be kept warm a sheet with information about substance or mixture with you in case of Inhalation: Break exposure, move to fresh air protecting the victim from	and must not get chilled. Take original c medical examination.	ontainer with label or safety data	
	breath or other symptoms persist. When on skin: Put away contaminated clothes and shoes, wash the contaminated spot with plenty of tepid water; if the skin is not irritated, soap can be used; seek doctor's advice, especially if the skin stays irritated.			
	Eye Contact: Rinse eyes with plenty of water (10 to 15 min). Keep eye lenses remove them immediately. Seek medical attention. Ingestion: Do not induce vomiting! Drink at least 0.5 liters of water with Toxicology Information Centre for need of medical treatment with infor SDS.	h 5 to 10 tablets of crushed charcoal. Ir	n case of nausea contact the	
4.2	Most important symptoms and effects, both acute and delayed			
	The product may have adverse effects through inhalation and if swalld	owed. It can irritate skin, mucous memb	oranes and eyes.	
4.3	Indication of any immediate medical attention and special treatment n	leeded:	Symptomatic treatment	
5.	Section 5: Fire-fighting measures			
5.1	Extinguishing media Suitable extinguishing media: The product is not inflammable. Water s Unsuitable extinguishing media: The strong water current. It can be sp		e, dry powder.	
5.2	Specific danger linked to the substance or mixture: Carbon monoxide		ıg.	
5.3	Advice for firefighters: wear a breathing apparatus and protective cloth			

I				
6.	Section 6: Accidental release measures			
6.1	Personal precautions, protective equipment and emergency procedures: A respirator.	Appropriate protective gloves, goggles, appropriate clothing, or		
6.1.1	For workers except for those intervening in emergency cases - instruction	s in case of accidental spill and leak of substance or mixture:		
	a) use of appropriate protection (including personal protective equipment a clothing contamination;	according to part 8 BL), in order to avoid any skin, eyes or personal		
	b) removing possible sources of ignition, providing proper ventilation, cont	trol of dust - not relevant		
	c) emergency measures, for example necessary evacuation from dangero	ous area or consultation with an expert - not relevant		
6.1.2	For workers intervening in emergency cases - instructions for appropriate	materials of personal protective suits (see part 8 BL)		
6.2	Environmental precautions: Prevent environmental pollution - leakage into	o drains, surface water, groundwater or soil.		
6.3	Methods and materials for limitation of leaks and for cleaning:			
6.3.1	Instructions for leak limitation of spilled substance or mixture			
	a) enclose the spilled mixture, cover the canalization;			
	b) seal the damaged package			
6.3.2	Instructions for removal of spilled substance or mixture			
	Absorb with appropriate agent, hand over to authorized person for disposa	al.		
6.4	Reference to other sections: See also section 7., 8 and 13.			
7.	Section 7: Handling and storage			
7.1	Measures for safe manipulation:			
7.1.1	Recomendations:	sty rules for work and have to show these rules. Or summer in the		
	a) Workers handeling the product have to get familiar with health and safety rules for work and have to obey these rules. Secure escape routs (enclosing of leaked mixture, sealing of demaged packages and so on), for fire prevention (remove ignition sources, non-sparkling tools and so on) andlimit the production of aerosol and dust.			
	b) Obey measures for prevention of manipulation with incompatible substances or mixtures (see part 10) in common areas.			
	 c) Store in original closed packages in temperature from +5 to +25 °C, do not expose to temperature under 0 °C (not even in short term). Do not expose to direct sunlight or other heat sources. d) Prevent the contamination of environment, i.e. leak into canalization, surface or underground water and soil. 			
712	Instructions for general hygiene of work:			
1.1.2	a) Do not eat, drink or smoke on work areas.			
	b) After working with product wash your hands with soap and water, eventualy use regeneration hand cream.			
	c) Before entering dining areas, remove contaminated clothing and protect			
7.2	Conditions for safe storage of substances and mixtures including incompatible substances and mixtures: Store in dry and well-ventilated storages in original closed packages in temperatures from +5 to +25 °C, do not expose to temperature under 0 °C (not even in short term). Do not expose to direct sunlight or other heat sources. Prevent any contact with oxidazing substances, strong acids and bases. Do not store with			
7.3	food, drinks and feed. The product is not a flamable liquid according to ČS Specific end use: see part 1.2; coating procedure and recomendations are	SN 65 0201.		
	documentation.			
8.	Section 8: Exposure controls / personal protection			
8.1	Control parameters:			
	Exposure limits EH40/2005 (WELs):			
	Mixture (ES: 400-830-7): DNEL (Workers, Hazard via inhalation route, Systemic effects, Long term			
	exposure)	0,398 mg/m°		
	DNEL (Workers, Hazard via dermal route, Systemic effects, Long term exposure)	0,25 mg/kg bw/day		
	DNEL (General Population, Hazard via inhalation route, Systemic effects, Long term exposure)			
	DNEL (General Population, Hazard via dermal route, Systemic effects, Long term exposure)	0,025 mg/kg bw/day		
	DNEL (General Population, Hazard via oral route, Systemic effects, Long term exposure)			
	PNEC aqua (freshwater)	0,023 mg/L		
	PNEC aqua (marine water)	0 mg/L		
	PNEC STP	100 mg/L		
	PNEC sediment (freshwater)	7,26 mg/kg sediment dw		
	PNEC sediment (marine water)	0,726 mg/kg sediment dw		
	PNEC soil Proceeding mixture (ES: 015 697 0);	14,52 mg/kg soil dw		
	Reaction mixture (ES: 915-687-0):	0.50 / 3		
	DNEL (Workers, Hazard via inhalation route, Systemic effects, Long term exposure)			
	NOAEC (Workers, Hazard via inhalation route, Systemic effects, Long term exposure)	264,5 mg/m ³		
	DNEL (Workers, Hazard via dermal route, Systemic effects, Long term exposure)	2 mg/kg bw/day		

	NOAEL (Workers, Hazard via dermal route, Systemic effects, Long term	300 mg/kg bw/day		
	exposure) DNEL (General Population, Hazard via inhalation route, Systemic effects,	0.87 mg/m^3		
	Long term exposure)	0,07 mg/m		
	NOAEC (General Population, Hazard via inhalation route, Systemic effects, Long term exposure)	130 mg/m ³		
	DNEL (General Population, Hazard via dermal route, Systemic effects, Long term exposure)	1 mg/kg bw/day		
	NOAEL (General Population, Hazard via dermal route, Systemic effects, Long term exposure)	300 mg/kg bw/day		
	DNEL (General Population, Hazard via oral route, Systemic effects, Long term exposure)	0,5 mg/m ³ bw/day		
	NOAEL (General Population, Hazard via oral route, Systemic effects, Long term exposure)	300 mg/kg bw/day		
	PNEC aqua (freshwater)	0,002 mg/L		
	PNEC aqua (marine water)	0 mg/L		
	PNEC STP	1 mg/L		
	PNEC sediment (freshwater)	1,05 mg/kg sediment dw		
	PNEC sediment (marine water)	0,11 mg/kg sediment dw		
	PNEC soil	0,21 mg/kg soil dw		
	Nonylphenol, branched, ethoxylated (ES: 500-209-1):			
	DNEL (Workers, Hazard via inhalation route, Systemic effects, Long term 4,7 mg/m ³ exposure)			
	NOAEC (Workers, Hazard via inhalation route, Systemic effects, Long term exposure)	14,1 mg/m ³		
	DNEL (Workers, Hazard via dermal route, Systemic effects, Long term exposure)	66,7 mg/kg bw/day		
	NOAEL (Workers, Hazard via dermal route, Systemic effects, Long term exposure)	40 mg/kg bw/day		
	PNEC aqua (freshwater)	0,8 μg/L		
	PNEC aqua (marine water)	0,8 μg/L		
	PNEC STP	10 mg/L		
	PNEC sediment (freshwater)	4,6 mg/kg sediment dw		
	PNEC sediment (marine water)	0,46 mg/kg sediment dw		
8.2	Exposure controls			
	Ensure adequate ventilation. Ensure protective equipment is worn while w after thorough cleaning. Wash your hands and face with soap and water a			
8.2.1	Appropriate engineering controls: Observe the usual precautions to protect	t the health and well-ventilated.		
8.2.2	Individual protection measures, such as personal protective equipment:			
	Occupational exposure is governed by Directive 89/686/EEC therefore any use of personal protective equipment must be in accordance with this Regulation.			
	a) Eyes and face protection: Suitable safety goggles (EN 166), face shiled.b) Skin protection: Common safety clothing with long sleave and shoes; take of the contaminated clothing and wash your skin with soap and water.			
	b-1) Hands protection: suitable protective gloves (made from rubber - according to EN 374), wash your hands with soap and water after work,			
	c) Airways protection: with proper area ventilation not required. When spraying, face half-shiled is recommended for gass filtration (EN 405) or quarter-shiled with gass filter (EN 140, EN 141).			
	d) Heat hazard: Special attention must be paid to construction of personal protection against materials, which are considered to be heat hazard. Not			
8.2.3	Environmental exposure controls: Avoid infiltration of surface and groundv	vater and soil.		
9.	Section 9: Physical and chemical properties			
9.1.	Information on basic physical and chemical properties			
	a) State	low viscosity liquid		
	b) Color	color shown on the cover		
	c) Odour:	characteristic		
	Odor threshold:	Not specified		
	d) Melting/Freezing point (temperature range) (°C):	approximately 0		
	e) Boiling point or initial boiling point and boiling range (°C)	approximately 100		
	f) Combustibility:	non-flammable liquid		
	g) Explosion limints: upper limit (% volume):	Not specified		
	lower limit (% volume):	Not specified		
	h) Point of ignition:	Not specified		
	i) Temperature of self-ignition:	Not specified		
	j) Temperature of decomposition (°C):	Not specified		
	k) pH (23 °C)	7,0 - 8,0		

	I) Kinematic viscosity:	Not specified
	m) Solubility (23 °C)	
	- with water:	unlimited miscibility
	- with fats:	Not specified
	n) Partition coefficient n - octanol/water:	Not specified
	o) Steam pressure (20 °C):	2,3 kPa
	p) Density and/or relative density (20 °C):	approximately 1,04 g.cm ⁻³
	q) Relative viscosity of steam (at °C):	Not specified
	r) Particles characteristics:	Not specified
9.2	Other information:	
9.2.1	Information about class of physical hazard:	is not relevant
9.2.2	Other safety characteristics	
	Evaporation rate:	Not specified
	Dynamic viscosity:	Not specified
	Explosive properties:	Not specified
	Oxidizing properties:	Not specified
	VOC (g/L)	11
10.	Section 10: Stability and reactivity Product is stable under recommended storage and handling conditions.	
10 1	0 0	ling conditions
10.1 10.2	Reactivity: Product is not reactive under recommended storage and hand Chemical stability: Product is stable under recommended storage and har	-
	,	5
10.3 10.4	Possibility of hazardous reactions: In case of contact with substances reac Conditions to avoid: Temperatures below 0 °C and above 100 °C cause d	
10.4	temperature reduce life of the product.	
10.5	Incompatible materials: Substances reacting with water.	
10.6	Hazardous Decomposition Products: Carbon monoxide and NOx may forr	n durina burnina.
		5 5
11.	Section 11: Toxicological information	
11.1	Information about hazard classes acording to (ES) č. 1272/2008	
	a) acute toxicity:	the classification cirteria are not met based on avilable information
	- LD ₅₀ , oral, rat (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information
	- LD ₅₀ , dermal, rat or rabbit (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information
	- LC ₅₀ , inhalation, rat, for aerosols or particles (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information
	- LC ₅₀ , inhalation, rat, for gases and vapours (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information
	b) corrosivity/skin irritation:	the classification cirteria are not met based on avilable information
	c) serious eye damage / eyes irritation:	the classification cirteria are not met based on avilable information
	d) sensitivity of airways / sensitivity of skin:	the classification cirteria are not met based on avilable information
	e) germ cells mutagenicity:	the classification cirteria are not met based on avilable information
	f) carcinogenicity:	the classification cirteria are not met based on avilable information
		the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information
	f) carcinogenicity:	
	f) carcinogenicity:g) toxicity for reproduction:	the classification cirteria are not met based on avilable information
	f) carcinogenicity:g) toxicity for reproduction:h) toxicity for specific organs - single exposure:	the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information
	 f) carcinogenicity: g) toxicity for reproduction: h) toxicity for specific organs - single exposure: i) toxicity for specific organs - multiple exposures: 	the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information
	 f) carcinogenicity: g) toxicity for reproduction: h) toxicity for specific organs - single exposure: i) toxicity for specific organs - multiple exposures: j) hazards while inhaled: 	the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information
	 f) carcinogenicity: g) toxicity for reproduction: h) toxicity for specific organs - single exposure: i) toxicity for specific organs - multiple exposures: j) hazards while inhaled: 	the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information No detrimental effects were found upon compliance with the
1.1.1	 f) carcinogenicity: g) toxicity for reproduction: h) toxicity for specific organs - single exposure: i) toxicity for specific organs - multiple exposures: j) hazards while inhaled: Human experience: 	the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information No detrimental effects were found upon compliance with the prescribed safety measures.
	 f) carcinogenicity: g) toxicity for reproduction: h) toxicity for specific organs - single exposure: i) toxicity for specific organs - multiple exposures: j) hazards while inhaled: Human experience: Tests on animals: 	the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information No detrimental effects were found upon compliance with the prescribed safety measures. Were not performed

11110	Internative offecto	unknown		
	Interactive effects	unknown		
	Lack of specific data	not relevant		
	Mixtures	see part 8		
11.1.1	Mixtures information compared to substance information 1) Substances in the mixture can react with each other inside of a body and can cause different levels of absorption, metabolism and secretion. 2) It is necessary to consider, if concentration of each substance is sufficient to contributeto mixture's effects on health. For each substance			
	 a) It is necessary to consider, if concentration of each substance is sufficient as a whole, for example when two different substances are causing vomiting and diarrhea; 	Not relevant for this mixture.		
	b) if it is not likely the effects will appear with current concentrations, for example when weak irritating substance is disolved in non-irritating solution to a level under certain concentration;	Not relevant for this mixture.		
	c) if the information about mutual effects of substances in the mixture are unavilable, no assumptions will be listed and instead effects on healtf of each substance will be listed.	e see part 8		
11.1.1	Other information	None		
11.2	Other hazards information			
11.2.1	Features causing disruption of endocrinal systém	Not relevant for this mixture.		
11.2.2	Additional data:	None		
12.	Section 12: Ecological information			
12.1	Toxicity	Harmful to aquatic life with long lasting effects.		
	Acute toxicity for water organisms:			
	- LC ₅₀ , 96 hours, fish (mg/kg):	Not set		
	- LC ₅₀ , 48 hours, fish (mg/kg):	Not set		
	- IC ₅₀ , 72 hours, algae (mg/kg):	Not set		
12.2	Persistence and degradability:	Not set		
12.3	Bioaccumulative potential:	Not set		
12.4	Mobility in soil:	It was not determined, the blend is miscible with water.		
12.5	Results of PBT and vPvB	The mixture does not meet the criteria for classification as PBT or vPvB.		
12.6	Features causing disruption of endocrinal systém	Unknown for this mixture		
12.7	Other adverse effects:	See Section 2		
	Additional data:	Details on the toxicity of hazardous components are given below.		
13.	Section 13: Disposal considerations			
13.1	Methods of waste management:			
	(a) Appropriate methods of disposal of the substance or mixture and contaminated packaging: Risk of environmental contaminated Waste Act (as amended) and the applicable Waste Disposal Regulations (as amended). Place the unused product and contaminate packaging in marked waste collection containers and hand it over for disposal to an authorised waste disposal person (specialised authorised to do so. Do not dispose of unused product down the drain. It must not be disposed of with municipal waste. Empty pa be used for energy recovery in a waste incinerator (except for metal) or disposed of in a landfill of the appropriate classification. C cleaned packaging may be handed over for recycling. Always comply with the relevant national legislation! Waste code according Commission Decision 2000/532/EC (waste catalog) - 08 01 11, 08 01 19 or 20 01 27.			
	b) Physical / chemical properties that can affect means of waste handling: Liquid mixture is completely miscible with water.			
	c) Avoidance of disposal through sewer: It is necessary to prevent leakage of both components and hardened mixture into drains.			
	c) Avoidance of disposal through sewer: It is necessary to prevent leakad	e of both components and hardened mixture into drains.		
	c) Avoidance of disposal through sewer: It is necessary to prevent leakaged)d) Special precautions for the recommended waste management: Avoid	· ·

- Toxic to aquatic life with long lasting effects.
- H412 Harmful to aquatic life with long lasting effects.

Guidelines for training: As required by national legislation.

Recommended restrictions on use (i. e. non-statutory recommendations by supplier):

Product should not be used for other purposes than specified (see section 1.2). Because specific conditions of use are beyond supplier's control it is responsibility of the user to adapt notifications to local law and regulations. Safety information describe the product with regard to safety and can not be considered technical information about the product.
