		SAFETY DATA SHEET			
acc	ording t	o regulation of Europian parliament and Counc according Committee regulation (EU) numb			AUSTIS
Date of Revisior		10. 05. 2024	Version number: 1 Replaces version: -		No. of pages: 7
Product	name:	ETERNAL NA BETON KOMFORT - co	mponent A		
1.	Section 1	: Identification of substance/mixture and of the company/	undertaking		
1.1	Product id		ETERNAL NA BETON KOMFOR	Г - component A	
		uct is not a nanoform, nor does it contain any nanoforms.			
	UFI code		8036-HT19-K61J-Y17D		
1.2 1.2.1		identified uses of the substance or mixture and uses advised a identified use:	against:		
	Life cycle		PW (wide use by professionals - b	asic)	
			C (consumer use)		
	Usage Na		SU0		
		age description: escription:	Component A - two component ep	oxy coating	
		Contributing Activity:	PC9a; PC15 roller or brush application		
			non-industrial spraying techniques		
	Contributi	ing activity description:	PROC10		
			PROC11		
	More info	rmation:	technical function of the product in this use:	 Component A - two epoxy coating 	o component
			quantity to be used:	0 - 10 t / yr	
			Regulatory status by use:	No	
			a limited number of devices for this use:	No	
			the subsequent period of	12 months	
			application relevant to this use:		
			an overview of environmental release categories for each life cycle stage:	ERC2; ERC6d; ER ERC11a	:C8c; ERC8f;
			supplied as a mixture		
1.2.2 1.3		ised against:	all other uses

4 .	Section 4: First aid measures				
4.1	Description of first aid measures				
	When providing first aid it is necessary to ensure safety of bot must be kept in mental and physical rest. Victim must be kept sheet with information about substance or mixture with you in Inhalation: Break exposure, move to fresh air protecting the vi	warm and must not get chilled. Take original case of medical examination.	container with label or safety data		
	breath or other symptoms persist.		pecially in coughing, shortness of		
	When on skin: Put away contaminated clothes and shoes, wash the contaminated spot with plenty of tepid water; if the skin is not irritated,				
	soap can be used; seek doctor's advice, especially if the skin stays irritated.				
	Eye Contact: Rinse eyes with plenty of water (10 to 15 min). Keep eyes open (even by force if necessary). If the victim is wearing contact lenses remove them immediately. Seek medical attention.				
	Ingestion: Do not induce vomiting! Drink at least 0.5 liters of w Toxicology Information Centre for need of medical treatment v SDS.				
4.2	Most important symptoms and effects, both acute and delayed				
	The product may have adverse effects through inhalation and	if swallowed. It can irritate skin, mucous mer	nbranes and eyes.		
4.3	Indication of any immediate medical attention and special trea	Itment needed:	Symptomatic treatment		
5.	Section 5: Fire-fighting measures				
5.1	Extinguishing media				
	Suitable extinguishing media: The product is not inflammable.	Water spray (water mist), foam, carbon diox	ide, dry powder.		
	Unsuitable extinguishing media: The strong water current. It ca	an be spread fire.			
5.2	Specific danger linked to the substance or misxture: After eval the remaining substance is burning (CO, CO ₂ , nitrogen oxydes		S		
5.3	life threatening.	in a statistic a			
5.5	Advice for firefighters: wear a breathing apparatus and protect	ive clotning.			
6.	Section 6: Accidental release measures				
6.1	Personal precautions, protective equipment and emergency p respirator.	rocedures: Appropriate protective gloves, goo	ggles, appropriate clothing, or		
6.1.1	For workers except for those intervening in emergency cases	- instructions in case of accidental spill and le	eak of substance or mixture:		
	 a) use of appropriate protection (including personal protective clothing contamination; 	equipment according to part 8 BL), in order to	o avoid any skin, eyes or personal		
	b) removing possible sources of ignition, providing proper vent	tilation, control of dust - not relevant			
	c) emergency measures, for example necessary evacuation fr		xpert - not relevant		
6.1.2	For workers intervening in emergency cases - instructions for	•	•		
6.2	Environmental precautions: Prevent environmental pollution -		,		
6.3	Methods and materials for limitation of leaks and for cleaning:				
6.3.1	Instructions for leak limitation of spilled substance or mixture				
1	a) enclose the spilled mixture, cover the canalization;				
1	b) seal the damaged package				
I .	-, zi ilo sallages paolago				

6.3.2	Instructions for removal of spilled substance or mixture			
~ .	Absorb with appropriate agent, hand over to authorized person for	disposal.		
6.4	Reference to other sections: See also section 7., 8 and 13.			
7.	Section 7: Handling and storage			
7.1	Measures for safe manipulation:			
7.1.1	Recomendations:			
	a) Workers handeling the product have to get familiar with health and safety rules for work and have to obey these rules. Secure escape routs (enclosing of leaked mixture, sealing of demaged packages and so on), for fire prevention (remove ignition sources, non-sparkling tools and so on) and limit the production of aerosol and dust.			
	b) Obey measures for prevention of manipulation with incompatibl	e substances or mixtures (see part 10) in common areas.		
		5 °C, do not expose to temperature under 0 °C (not even in short term). Do		
	d) Prevent the contamination of environment, i.e. leak into canalize	ation, surface or underground water and soil.		
7.1.2	Instructions for general hygiene of work:			
	a) Do not eat, drink or smoke on work areas.			
	b) After working with product wash your hands with soap and water, eventualy use regeneration hand cream.			
	c) Before entering dining areas, remove contaminated clothing an			
7.2	Conditions for safe storage of substances and mixtures including incompatible substances and mixtures: Store in dry and well-ventila storages in original closed packages in temperatures from +5 to +25 °C, do not expose to temperature under 0 °C (not even in short to not expose to direct sunlight or other heat sources. Prevent any contact with oxidazing substances, strong acids and bases. Do not so			
7.3	Specific end use: see part 1.2; coating procedure and recomendat documentation.			
8.	Section 8: Exposure controls / personal protection			
8.1	Control parameters:			
0.1	Exposure limits EH40/2005 (WELs):			
	Chemical name:	Talc, respirable dust		
	CAS:	14807-96-6		
	Long-term exposure limit [mg/m ³] (TWA/8 h)	1		
8.2	Short-term exposure limit [mg/m ³] (15 minut) Exposure controls	Not Assigned		
I		while working with the product. Contaminated work clothes can be reused water after use. Do not eat, drink or smoke while working with the product.		
8.2.1	Appropriate engineering controls: Observe the usual precautions t	o protect the health and well-ventilated.		
8.2.2	Individual protection measures, such as personal protective equip	ment:		
	Occupational exposure is governed by Directive 89/686/EEC therefore any use of personal protective equipment must be in accordance with this Regulation.			
	a) Eyes and face protection: Suitable safety goggles (EN 166), fac			
	b) Skin protection: Common safety clothing with long sleave and shoes; take of the contaminated clothing and wash your skin with soap and water			
1	water. b-1) Hands protection: suitable protective gloves (made from rubber - according to EN 374), wash your hands with soap and water after work,			
	c) Airways protection: with proper area ventilation not required. When spraying, face half-shiled is recommended for gass filtration (EN 405) or quarter-shiled with gass filter (EN 140, EN 141).			
	d) Heat hazard: Special attention must be paid to construction of personal protective measures, when specifying protective measures for			
	protection against materials, which are considered to be heat haza			
8.2.3	Environmental exposure controls: Avoid infiltration of surface and	groundwater and soil.		
9.	Section 9: Physical and chemical properties			
9.1.	Information on basic physical and chemical properties			
	a) State	viscous liquid		
	b) Color	color shown on the cover		
	c) Odour:	characteristic after amines		
	Odor threshold:	Not specified		
	d) Melting/Freezing point (temperature range) (°C):	approximately 0		
	e) Boiling point or initial boiling point and boiling range (°C)	approximately 100		
	f) Combustibility:	non-flammable liquid		
	g) Explosion limints: upper limit (% volume):	Not specified		
	lower limit (% volume):	Not specified		
	h) Point of ignition:	Not specified		
	i) Temperature of self-ignition:	Not specified		
	j) Temperature of decomposition (°C):	Not specified		
	k) pH (23 °C)	approximately 7,5 - 9,5		
	I) Kinematic viscosity:	Not specified		
	m) Solubility (23 °C)			

	- with water:	unlimited miscibility with water
	- with fats:	Not specified
	n) Partition coefficient n - octanol/water:	Not specified
	o) Steam pressure (20 °C):	Not specified
	p) Density and/or relative density (20 °C):	approximately 1,30 g.cm ⁻³ (20 °C)
	q) Relative viscosity of steam (at °C):	Not specified
	r) Particles characteristics:	Not specified
9.2	Other information:	
9.2.1	Information about class of physical hazard:	is not relevant
9.2.2	Other safety characteristics	
	Evaporation rate:	Not specified
	Dynamic viscosity:	Not specified
	Explosive properties:	Not specified
	Oxidizing properties:	Not specified
	VOC (Mixture A + B)	3 g/L
10.	Section 10: Stability and reactivity	
10.1	Product is stable under recommended storage and handling conditions. Reactivity: Product is not reactive under recommended storage and har

10.2		-
	Possibility of hazardous reactions: In case of contact with substances re Conditions to avoid: Temperatures below 0 °C and above 100 °C agues	
10.4	Conditions to avoid: Temperatures below 0 °C and above 100 °C cause storage temperature reduce life of the product.	degradation of the product. Temperatures above recommended
10.5	Incompatible materials: Substances reacting with water, strong acids an	nd bases, oxidizing agents, peroxides, uncontrolled contact with epoxy
	groups.	
10.6	Hazardous Decomposition Products: Carbon monoxide and dioxide, nitr burning.	rogen oxides, ammonia, indefinable organic mixtures may form during
11.	Section 11: Toxicological information	
11.1	Information about hazard classes acording to (ES) č. 1272/2008	
	a) acute toxicity:	
	- LD_{50} , oral, rat (mg.kg ⁻¹):	the eleccification sisteria are not mat based on svilable information
		the classification cirteria are not met based on avilable information
	- LD ₅₀ , dermal, rat or rabbit (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information
	- LC ₅₀ , inhalation, rat, for aerosols or particles (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information
	- LC ₅₀ , inhalation, rat, for gases and vapours (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information
	b) corrosivity/skin irritation:	the classification cirteria are not met based on avilable information
	c) serious eye damage / eyes irritation:	Causes serious eye damage.
	d) sensitivity of airways / sensitivity of skin:	the classification cirteria are not met based on avilable information
	e) germ cells mutagenicity:	the classification cirteria are not met based on avilable information
	f) carcinogenicity:	the classification cirteria are not met based on avilable information
	g) toxicity for reproduction:	the classification cirteria are not met based on avilable information
	h) toxicity for specific organs - single exposure:	the classification cirteria are not met based on avilable information
	i) toxicity for specific organs - multiple exposures:	the classification cirteria are not met based on avilable information
	j) hazards while inhaled:	the classification cirteria are not met based on avilable information
	Human experience:	No detrimental effects were found upon compliance with the
		prescribed safety measures.
	Tests on animals:	Were not performed
11.1.1	Information for each hazard class or breakdown:	see above
11.1.2	Toxicological properties of mixture	not avilable
	talc (CAS: 14807-96-6)	see part 8
11.1.3	If enough information from substance/mixture trials exist, it might be necessary to sum up results of used studies, for example according to exposure run	not relevant
11.1.4	If the classification criteria are not met for specific hazard class, information explaining the justification should be stated.	relevant concentration limits were not exceeded
11.1.5	Information about likely exposure run	no effects on human health are known
11.1.6	Symptoms corresponding to physical, chemical and toxicological features	no effects on human health are known
11.1.7	Belated and immediate effects and chronical effects of short/long term exposure	no effects on human health are known
11.1.8	Interactive effects	unknown
11.1.9	Lack of specific data	not relevant
	Mixtures	see part 8
	Mixtures information compared to substance information	1
	1) Substances in the mixture can react with each other inside of a body	and can cause different levels of absorption, metabolism and

1) Substances in the mixture can react with each other inside of a body and can cause different levels of absorption, metabolism and

	2) It is necessary to consider, if concentration of each substance is suff			
	a) if the information are doubled, they are listed only once for a substance as a whole, for example when two different substances are	Not relevant for this mixture.		
	causing vomiting and diarrhea;			
	 b) if it is not likely the effects will appear with current concentrations, for example when weak irritating substance is disolved in non-irritating solution to a level under certain concentration; 	Not relevant for this mixture.		
	c) if the information about mutual effects of substances in the mixture are unavilable, no assumptions will be listed and instead effects on healtf of each substance will be listed.	see part 8		
1.1.12	Additional data:	None		
1.2	Other hazards information			
1.2.1	Features causing disruption of endocrinal systém	Not relevant for this mixture.		
1.2.2	Other information	None		
2.	Section 12: Ecological information			
2.1	Toxicity			
	Acute toxicity for water organisms:			
	- LC ₅₀ , 96 hours, fish (mg/kg):	Not set		
	- LC ₅₀ , 48 hours, fish (mg/kg):	Not set		
	- IC ₅₀ , 72 hours, algae (mg/kg):	Not set		
2.2	Persistence and degradability:	For the mixture is not known.		
2.3	Bioaccumulative potential:	For the mixture is not known.		
2.4	Mobility in soil:	It was not determined, the blend is miscible with water.		
12.5	Results of PBT and vPvB	The mixture does not meet the criteria for classification as PBT or vPvB.		
2.6	Features causing disruption of endocrinal systém	Unknown for this mixture		
2.7	Other adverse effects:	See Section 2		
12.1	Additional data:	None
