		SAFETY DATA SHEET		ß
acco	ording to	regulation of Europian parliament and Coun according Committee regulation (EU) numl	· · · ·	AUSTIS
Date of	Issue:	01. 11. 2024	Version number: 1	No. of pages: 8
Revisio	n date:		Replaces version: -	
Product	t name:	ETERNAL ODSTRAÑOVAČ PLÍSNÍ		
1.	Section 1	: Identification of substance/mixture and of the compar	w/undertaking	
1.1	Product id		ETERNAL ODSTRAŇOVAČ PLÍSI	NÍ
		ict is not a nanoform, nor does it contain any nanoforms.		
	UFI code:		4H6G-AN5A-HD1H-U6C8	
1.2	Relevant i	dentified uses of the substance or mixture and uses advise	d against:	
1.2.1	Relevant i	dentified use:		
	Life cycle	phases:	PW (wide use by professionals - ba	asic)
			C (consumer use)	
	Usage Na		SU0	
		ge description:	biocidal product, type 10	
	Market de	scription: ng Activity Name:	PC8; PC9a; PC15	
	Contributii	ng Activity Name.	roller or brush application	
	Contributir	ng activities descriptor:	non-industrial spraying techniques PROC10	
	Contributi		PROC11	
	More infor	mation:	technical function of the product in this use:	biocidal product, type 10
			quantity to use:	0 - 10 t / yr
			Regulatory status by use:	No
			a limited number of devices for this use:	s No
			the subsequent period of use relevant to this use:	24 months
			an overview of environmental release categories for each life cycle stage:	ERC2; ERC8c; ERC8f; ERC10a; ERC11a
			supplied as a mixture	
1.2.2	Uses advis	sed against:	all other uses	
1.3	Details of	the supplier of the safety data sheet:		
		and supplier:	AUSTIS a. s.

2.	Section 2	: Hazard identification		
2.1	Classificat	tion of the substance or mixture		
	Classificat	tion under Regulation 1272/2008/EU	Eye Irrit. 2; H319 Skin Irrit. 2; H315 Skin Sens. 1A; H317	
			Aquatic Chronic 2; H411	
2.2	Label elen	nents		
	Symbols:		GHS07 GHS09	
	Signal wor	rd:	warning	

2-octyl-2H-isothiazol-3-one (ES: 247-761-7): ≤ 0,5 g / ^ Use biocides safely. Always read the label information before use. Hazard Statement: H319: Causes serious eye irritation. H315: Causes skin irritation. H315: Cause skin irritation. H317: May cause an allergic skin reaction.	kg of product 1 kg of product and product
2-octyl-2H-isothiazol-3-one (ES: 247-761-7): ≤ 0,5 g / ^ Use biocides safely. Always read the label information before use. Hazard Statement: H319: Causes serious eye irritation. H315: Causes skin irritation. H315: Cause an allergic skin reaction.	1 kg of product
Use biocides safely. Always read the label information before use. Hazard Statement: H319: Causes serious eye irritation. H315: Causes skin irritation. H317: May cause an allergic skin reaction.	
Information before use.Hazard Statement:H319: Causes serious eye irritation.H315: Causes skin irritation.H317: May cause an allergic skin reaction.	
Hazard Statement:H319: Causes serious eye irritation.H315: Causes skin irritation.H317: May cause an allergic skin reaction.	
H317: May cause an allergic skin reaction.	
, ,	
H411: Toxic to aquatic life with long lasting ef	ifects.
Precautionary Statement: P102: Keep out of reach of children.	
P273: Avoid release to the environment.	
P280: Wear protective gloves/protective cloth protection.	ing/eye protection/ face
P302+P352: IF ON SKIN: Wash with plenty o	of water and soap.
P305+P351+P338: IF IN EYES: Rinse caution	
several minutes. Remove contact lenses, if p	resent and easy to do.
Continue rinsing. P337+P313: If eye irritation persists: Get med	dical advice/attention
P332+P313: If skin irritation occurs: Get med	
P391: Collect spillage.	
P501: Dispose of contents/container in accord	dance with relevant
2.3 Other hazards: national legislation. The mixture does not meet criteria to be class	sified as PBT or vPvB
substances. The mixture is not endocrine disc	
contain any.	•
Other risks: Not Assigned

4.	Section 4: First aid measures		
4.1	must be kept in mental and physical rest. Victim must be ke sheet with information about substance or mixture with you	oth victim and person rescuing. It is necessary to avoid chaotic behavior. Victim pt warm and must not get chilled. Take original container with label or safety dat in case of medical examination. victim from cold. Provide medical treatment especially if coughing, shortness of	
	breath or other symptoms persist. When on skin: Put away contaminated clothes and shoes, v	vash the contaminated spot with plenty of tepid water; if the skin is not irritated,	
	soap can be used; seek doctor's advice, especially if the skin stays irritated. Eye Contact: Rinse eyes with plenty of water (10 to 15 min). Keep eyes open (even by force if necessary). If the victim is wearing contact		
	• •	water with 5 to 10 tablets of crushed charcoal. In case of nausea contact the twith information about composition of the mixture from the original container or	
4.2	Most important symptoms and effects, both acute and delay		
4.3	I he product may have adverse effects through inhalation ar Indication of any immediate medical attention and special tr	nd if swallowed. It can irritate skin, mucous membranes and eyes. eatment needed: Symptomatic treatment	
5.	Section 5: Fire-fighting measures		
5.1	Extinguishing media Suitable extinguishing media: The product is not inflammabl Unsuitable extinguishing media: The strong water current. It	e. Water spray (water mist), foam, carbon dioxide, dry powder. can be spread fire.	
5.2			
5.3	Advice for firefighters: wear a breathing apparatus and prote	ctive clothing.	
ò.	Section 6: Accidental release measures		
6.1	Personal precautions, protective equipment and emergency respirator.	procedures: Appropriate protective gloves, goggles, appropriate clothing, or	
6.1.1	For workers except for those intervening in emergency cases - instructions in case of accidental spill and leak of substance or mixture: a) use of appropriate protection (including personal protective equipment according to part 8 BL), in order to avoid any skin, eyes or perso b) removing possible sources of ignition, providing proper ventilation, control of dust - not relevant		
6.1.2	c) emergency measures, for example necessary evacuation from dangerous area or consultation with an expert - not relevant For workers intervening in emergency cases - instructions for appropriate materials of personal protective suits (see part 8 BL)		
5.2	For workers intervening in emergency cases - instructions for appropriate materials of personal protective suits (see part 8 BL) Environmental precautions: Prevent environmental pollution - leakage into drains, surface water, groundwater or soil.		
5.3	Methods and material for containment and cleaning up: Anchor suitable absorbent, transfer to the disposal of the authorized person.		
5.3.1	Instructions for leak limitation of spilled substance or mixture		
	a) enclose the spilled mixture, cover the canalization;		
	b) seal the damaged package		
6.3.2	Instructions for removal of spilled substance or mixture		
	Absorb with appropriate agent, hand over to authorized pers disposal.	on for	
6.4	Reference to other sections: See also section 7., 8 and 13.		
' .	Section 7: Handling and storage		
	Measures for safe manipulation: Recomendations:		
7.1 7.1.1			

	 b) Obey measures for prevention of manipulation with incompatible substances or mixtures (see part 10) in common areas. c) Store in original closed packages in temperature from +5 to +25 °C, do not expose to temperature under 0 °C (not even in short term). Do not expose to direct sunlight or other heat sources. d) Prevent the contamination of equipment i.e. look into exposition or underground under and only. 								
740	d) Prevent the contamination of environment, i.e. leak into canalization, surface or underground water and soil.								
7.1.2	Instructions for general hygiene of work: a) Do not eat, drink or smoke on work areas. b) After working with product wash your hands with soap and water, eventualy use regeneration hand cream.								
					7.0	c) Before entering dining areas, remove contaminated clothing and protective equipment.			
					7.2	Conditions for safe storage of substances and mixtures including inco storages in original closed packages in temperatures from +5 to +25 ° Do not expose to direct sunlight or other heat sources. Prevent any co with food, drinks and feed. The product is not a flamable liquid accord	°C, do not expose to temperature under 0 °C (not even in short term). ontact with oxidazing substances, strong acids and bases. Do not store		
7.3	Specific end use: see part 1.2; coating procedure and recomendations are listed in technical list of the product, or in other product								
_	documentation.								
8.	Section 8: Exposure controls / personal protection								
8.1	Control parameters:								
	Exposure limits EH40/2005 (WELs):	Not Assigned							
	didecyldimethylammonium chloride (ES: 230-525-2)								
	DNEL (Workers, Hazard via inhalation route, Systemic effects, Long term exposure)	18,2 mg/m ³							
	NOAEC (Workers, Hazard via inhalation route, Systemic effects, Long term exposure)	54,6 mg/m ³							
	DNEL (Workers, Hazard via dermal route, Systemic effects, Long term exposure)	8,6 mg/kg bw/day							
	NOAEL (Workers, Hazard via dermal route, Systemic effects, Long term exposure)	103 mg/kg bw/day							
	PNEC aqua (freshwater)	2 μg/L							
	PNEC aqua (marine water)	0,2 μg/L							
	PNEC STP	0,595 mg/L							
	PNEC sediment (freshwater)	2,82 mg/kg sediment dw							
	PNEC sediment (marine water)	0,28 mg/kg sediment dw							
	PNEC soil	1,4 mg/kg soil dw							
8.2	Exposure controls								
		ile working with the product. Contaminated work clothes can be reused ter after use. Do not eat, drink or smoke while working with the product.							
8.2.1	Appropriate engineering controls: Observe the usual precautions to pr	rotect the health and well-ventilated.							
8.2.2	Individual protection measures, such as personal protective equipment:								
	Occupational exposure is governed by Directive 89/686/EEC therefore any use of personal protective equipment must be in accordance with this Regulation.								
	a) Eyes and face protection: Suitable safety goggles (EN 166), face shiled.								
	b) Skin protection: Common safety clothing with long sleave and shoes; take of the contaminated clothing and wash your skin with soap and water.								
	b-1) Hands protection: suitable protective gloves (made from rubber - according to EN 374), wash your hands with soap and water after work, use reparing hand cream.								
	c) Airways protection: with proper area ventilation not required. When spraying, face half-shiled is recomended for gass filtration (EN 405) or quarter-shiled with gass filter (EN 140, EN 141).								
	d) Heat hazard: Special attention must be paid to construction of personal protective measures, when specifying protective measures for								
8.2.3	protection against materials, which are considered to be heat hazard. Not relevant for this product. Environmental exposure controls: Avoid infiltration of surface and groundwater and soil.								
9.	Section 9: Physical and chemical properties								
9.1.	Information on basic physical and chemical properties								
	a) State	low viscosity liquid							
	b) Color	colourless liquid							
	c) Odour:	characteristic							
	Odor threshold:	Not specified							
	d) Melting/Freezing point (temperature range) (°C):	approximately 0							
	e) Boiling point or initial boiling point and boiling range (°C)	approximately 100							

1	f) Complexed bills a	non-flammable liquid
	f) Combustibility:	Not specified
	g) Explosion limints: upper limit (% volume):	Not specified
	lower limit (% volume):	Not specified
	h) Point of ignition:	Not specified
	i) Temperature of self-ignition:	Not specified
	j) Temperature of decomposition (°C):	5,0 - 8,0
	k) pH	
	I) Kinematic viscosity:	Not specified
	m) Solubility (23 °C)	unlimited missibility with water
	- with water:	unlimited miscibility with water
	- with fats:	Not specified
	n) Partition coefficient n - octanol/water:	Not specified
	o) Steam pressure (20 °C):	2,3 kPa
	p) Density and/or relative density (20 °C):	approximately 0,9 - 1,0 g.cm ⁻³
	q) Relative viscosity of steam (at °C):	Not specified
0.0	r) Particles characteristics:	Not specified
9.2	Other information:	in not relevant
9.2.1	Information about class of physical hazard:	is not relevant
9.2.2	Other safety characteristics	Not see a 20 and
	Evaporation rate:	Not specified
	Dynamic viscosity:	Not specified
	Explosive properties:	Not specified
	Oxidizing properties:	Not specified
	Time required for biocidal effect:	min. 1 hour after the last layer is applied; effect against algae after 3 days
45	Section 10: Stability and reactivity

15.	Section 15: Regulatory information			
15.1	Safety, health and environmental regulations/legislation specific for the substance or mixture.			
	Regulation of the European Parliament and Council Regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals establishing a European Chemicals Agency, as amended			
	Regulation of the European Parliament and Council Regulation (EC) No 1272/2008 (CLP) as amended			
	Commision directive (EU) no. 878/2020			
	Regulation (EU) No. 528/2012 of the European Parliament and of the Council concerning the making available on the market and use of biocidal products. Note: According to Article 69 letter (i) the following sentence must be stated: "Read attached instructions before use." According to Article 72 Advertising number (1) the following sentence must be stated: "Use biocides safely. Always read the label and product information before use."			

EH40/2005 Workplace exposure limits (second edition, published 2011). Containing the list of workplace exposure limits for use with the Control of Substances Hazardous to Health Regulations (as amended) 15.2 Assessment chemical safety of mixture: Were not performed 16. Section 16: Other informations Information stated in this safety data sheet is based on the current knowledge of EU legislation. It is recommendation in terms of health and safety as well as recommendation related to ecological matters that are essential to safe usage of the product. a) New edition. b) key or legend for abbreviations and accronyms used in the safety data sheet: LD₅₀ The lethal dose for 50 % mortality of the test population relative to a control sample. Lethal concentration for 50 % mortality of the test population relative to a control sample. LC_{50} EC_{50} Effective concentration for 50 % mortality of the test population relative to a control sample. EC₁₀ Effective concentration for 10 % mortality of the test population relative to a control sample. IC_{50} Inhibitory concentration to reduce the growth or growth rate of 50% of the test population relative to a control sample. Lethal loading doses of test substance resulting in 50% mortality LL₅₀ EL₅₀ Effective loading doses of test substance resulting in 50% mortality PRT Persistent, bioaccumulative and toxic substances. vPvB Very persistent and very bioaccumulative substances. DNEL Derived No Effect Level - derived concentration of the substance without adverse effects DMFI Derived Minimum Effect Level - derived minimum level at which the adverse effects NOAFI No Observed Adverse Effect Level - no negative effect was observed PNFC Predicted No Effect Concentration - an estimate of the concentration of the substance without adverse effects NOELR No Observed Effect Loading Rate - dosage rate without observed effect NOEC No Observed Effect Concentration - concentration without observed effect NOEL No Observed Effect Level - level without observed effect I OFC Lowest Observed Effect Concentration - lowest concentrations with observable effects ADR European Agreement concerning the international carriage of dangerous goods by road. RID Regulations concerning the international carriage of dangerous goods by rail. IMDG International maritime code of dangerous goods. ICAO The International Civil Aviation Organization. ΙΑΤΑ International Air Transport Association. GHS Globally Harmonized System of Classification and Labelling of Chemical substances. c) important references to literature and data sources Initial data sources are safety data sheets of the inherent (components). d) in case of mixture, statement about evaluation method used for classification according to article 9 of directive (ES) number 1272/2008 For evaluation purposes, principles of extrapolation were used. Calculation methods.

e) List of H-sentences, whose full form is not listed in other parts.

H301	Toxic if swallowed.
H302	Harmful if swallowed.
H311	Toxic in contact with skin.
H314	Causes severe skin burns and eye damage.
H315	Causes skin irritation.
H317	May cause an allergic skin reaction.
H318	Causes serious eye damage.
H319	Causes serious eye irritation.
H330	Fatal if inhaled.
H400	Very toxic to aquatic life.
H410	Very toxic to aquatic life with long lasting effects.
H411	Toxic to aquatic life with long lasting effects.

Guidelines for training:

As required by national legislation.

Recommended restrictions on use (i. e. non-statutory recommendations by supplier):

Product should not be used for other purposes than specified (see section 1.2). Because specific conditions of use are beyond supplier's control it is responsibility of the user to adapt notifications to local law and regulations. Safety information describe the product with regard to safety and can not be considered technical information about the product.
