		SAFETY DATA SHEET		®
ac	cording to	regulation of Europian parliament and Coun according Committee regulation (EU) numb		AUSTIS
	of Issue:	10. 05. 2024	Version number: 1	No. of pages: 7
	on date: ct name:	ETERNAL NA STRECHY	Replaces version: -	
i iouu	et name.			
1.	Section 1:	Identification of substance/mixture and of the company/	undertaking	
1.1	Product ide	ntifier:	ETERNAL NA STŘECHY	
		t is not a nanoform, nor does it contain any nanoforms.		
1 2	UFI code:		3UWN-FN1W-4610-DHV5	
1.2 1.2.1	Relevant ide	entified uses of the substance or mixture and uses advised a	igainst:	
	Life cycle pl		PW (wide use by professionals -	basic)
			C (consumer use)	
	Usage Nam		SU0	
	-	e description:	Waterproofing material	
	Market deso	•	PC9a; PC15	
	Contributing	g Activity Name:	roller or brush application non-industrial spraying technique	s
	Contributing	activities descriptor:	PROC10	5
			PROC11	
	More inform	nation:	technical function of the product i this use:	n Waterproofing material
			quantity to use:	10 - 100 t / yr
			Regulatory status by use:	No
			a limited number of devices for this use:	No
			the subsequent period of use relevant to this use:	24 months
			an overview of environmental release categories for each life cycle stage:	ERC2; ERC8c; ERC8f; ERC10a; ERC11a
			supplied as a mixture	
1.2.2	Uses advise	ed against:	all other uses	
1.3	Details of th	e supplier of the safety data sheet:		
	Producer ar	nd supplier:	AUSTIS a. s.	
	Adress:		K Austisu 680, 154 00 PRAHA	5 - Slivenec
	Telephone r	number:	+420 251 099 111 +420 251 099 112	
	Fax: e-mail		austis@austis.cz	
1.4		telephone number:	+420 251 099 247	+420 725 491 378

	CZ			
2.	Section 2:	Hazard identification		
2.1	Classificatio	on of the substance or mixture		
	Classificatio	on under Regulation 1272/2008/EU	Skin Sens. 1A; H317	
2.2	Label eleme	ents	Aquatic Chronic 3; H412	
	Symbols:		GHS07	
			\wedge	
	Signal word	:	warning	
	It contains a	a hazardous substance:	Terbutryn, octhilinone (ISO)	
	Hazard Stat	tement:	H317 May cause an allergic skin	
	Precautiona	ary Statement:		
			protection. P302+P352: IF ON SKIN: Wash P501: Dispose of contents/contai national legislation.	

Other hazards:	The mixture does not meet crite substances. The mixture is not e contain any.	ria to be classified as PBT or vPv endocrine disruptor, nor does it
Other risks:	EUH208: It contains a reaction mixtue: CMIT/MIT (3:1) [Index number: 613-167-00-5]. May cause an allergic reaction.	
 Section 3: Composition / information on ingredients		
A mixture of an aqueous dispersion of acrylic resins, pigments, fille	ers and additives.	
Mixtures		
Chemical name:		octhilinone (ISO)
Content [%]:		< 0,005
Index number:		613-112-00-5
CAS: EC number (EINECS):		26530-20-1 247-761-7

Full text of H - phrases in Section 16		

When providing first aid it is necessary to ensure safety of both victim and person rescuing. It is necessary to avoid chaotic behavior. Victim must be kept in mental and physical rest. Victim must be kept warm and must not get chilled. Take original container with label or safety data sheet with information about substance or mixture with you in case of medical examination.

	Inhalation: Break exposure, move to fresh air protecting the victim from cold. Provide medical treatment especially if coughing, shortness of breath or other symptoms persist.		
	When on skin: Put away contaminated clothes and shoes, wash the contaminated spot with plenty of tepid water; if the skin is not irritated, soap can be used; seek doctor's advice, especially if the skin stays irritated.		
	Eye Contact: Rinse eyes with plenty of water (10 to 15 min). Keep eyes open (even by force if necessary). If the victim is wearing contact lenses remove them immediately. Seek medical attention.		
	Ingestion: Do not induce vomiting! Drink at least 0.5 liters of water with 5 to 10 tablets of crushed charcoal. In case of nausea contact the Toxicology Information Centre for need of medical treatment with information about composition of the mixture from the original container or SDS.		
4.2	Most important symptoms and effects, both acute and delayed		
	The product may have adverse effects through inhalation and if swallowed. It can irritate skin, mucous membranes and eyes.		
4.3	Indication of any immediate medical attention and special treatment needed: Symptomatic treatment		
5.	Section 5: Fire-fighting measures		
5.1	Extinguishing media		
	Suitable extinguishing media: The product is not inflammable. Water spray (water mist), foam, carbon dioxide, dry powder.		
	Unsuitable extinguishing media: The strong water current. It can be spread fire.		
5.2 5.3	Specific danger linked to the substance or mixture: Carbon monoxide and dioxide and carbon black can be produced while burning.		
5.3	Advice for firefighters: wear a breathing apparatus and protective clothing.		
6.	Section 6: Accidental release measures		
6.1	Personal precautions, protective equipment and emergency procedures: Appropriate protective gloves, goggles, appropriate clothing, or respirator.		
6.1.1	For workers except for those intervening in emergency cases - instructions in case of accidental spill and leak of substance or mixture:		
	a) use of appropriate protection (including personal protective equipment according to part 8 BL), in order to avoid any skin, eyes or personal clothing contamination;		
	b) removing possible sources of ignition, providing proper ventilation, control of dust - not relevant		
6.1.2	c) emergency measures, for example necessary evacuation from dangerous area or consultation with an expert - not relevant For workers intervening in emergency cases - instructions for appropriate materials of personal protective suits (see part 8 BL)		
6.1.2 6.2	For workers intervening in emergency cases - instructions for appropriate materials of personal protective suits (see part 8 BL) Environmental precautions: Prevent environmental pollution - leakage into drains, surface water, groundwater or soil.		
0.2 6.3	Methods and materials for limitation of leaks and for cleaning:		
6.3.1	Instructions for leak limitation of spilled substance or mixture		
0.011	a) enclose the spilled mixture, cover the canalization;		
	b) seal the damaged package		
6.3.2	Instructions for removal of spilled substance or mixture		
	Absorb with appropriate agent, hand over to authorized person for disposal.		
6.4	Reference to other sections: See also section 7., 8 and 13.		
7.	Section 7: Handling and storage		
7.1	Measures for safe manipulation:		
7.1.1	Recomendations:		
	a) Workers handeling the product have to get familiar with health and safety rules for work and have to obey these rules. Secure escape routs (enclosing of leaked mixture, sealing of demaged packages and so on), for fire prevention (remove ignition sources, non-sparkling tools and so on) and limit the production of aerosol and dust.		
	b) Obey measures for prevention of manipulation with incompatible substances or mixtures (see part 10) in common areas.		
	c) Store in original closed packages in temperature from +5 to +25 °C, do not expose to temperature under 0 °C (not even in short term). Do not expose to direct sunlight or other heat sources.		
	d) Prevent the contamination of environment, i.e. leak into canalization, surface or underground water and soil.		
7.1.2	Instructions for general hygiene of work:		
	a) Do not eat, drink or smoke on work areas.		
	 b) After working with product wash your hands with soap and water, eventualy use regeneration hand cream. c) Before entering dining areas, remove contaminated clothing and protective equipment. 		
7.2	c) before entering during areas, remove contaminated clothing and protective equipment. Conditions for safe storage of substances and mixtures including incompatible substances and mixtures: Store in dry and well-ventilated		
1.2	storages in original closed packages in temperatures from +5 to +25 °C, do not expose to temperature under 0 °C (not even in short term). Do not expose to direct sunlight or other heat sources. Prevent any contact with oxidazing substances, strong acids and bases. Do not store with food, drinks and feed. The product is not a flamable liquid according to ČSN 65 0201.		
7.3	Specific end use: see part 1.2; coating procedure and recomendations are listed in technical list of the product, or in other product documentation.		
8.	Section 8: Exposure controls / personal protection		
8.1	Control parameters:		
	Exposure limits EH40/2005 (WELs): Not Assigned		
8.2	Exposure controls Ensure adequate ventilation. Ensure protective equipment is worn while working with the product. Contaminated work clothes can be reused		
	after thorough cleaning. Wash your hands and face with soap and water after use. Do not eat, drink or smoke while working with the product.		

8.2.1	Appropriate engineering controls: Observe the usual precautions to	o protect the health and well-ventilated.			
8.2.2	Individual protection measures, such as personal protective equipr	ment:			
	Occupational exposure is governed by Directive 89/686/EEC therefore any use of personal protective equipment must be in accordance with this Regulation. a) Eyes and face protection: Suitable safety goggles (EN 166), face shiled. b) Skin protection: Common safety clothing with long sleave and shoes; take of the contaminated clothing and wash your skin with soap and water.				
		c) Airways protection: with proper area ventilation not required. When spraying, face half-shiled is recomended for gass filtration (EN 405) or quarter-shiled with gass filter (EN 140, EN 141).			
	d) Heat hazard: Special attention must be paid to construction of p protection against materials, which are considered to be heat haza	personal protective measures, when specifying protective measures for ard. Not relevant for this product.			
8.2.3	Environmental exposure controls: Avoid infiltration of surface and g				
9.	Section 9: Physical and chemical properties				
9.1.	Information on basic physical and chemical properties				
	a) State	viscous liquid			
	b) Color	color shown on the cover			
	c) Odour:	characteristic of acrylic dispersion			
	Odor threshold:	Not specified			
	d) Melting/Freezing point (temperature range) (°C):	approximately 0			
	e) Boiling point or initial boiling point and boiling range (°C)	approximately 100			
	f) Combustibility:	non-flammable liquid Not specified			
	g) Explosion limints: upper limit (% volume):				
	lower limit (% volume):	Not specified			
	h) Point of ignition:	Not specified			
	i) Temperature of self-ignition:	Not specified			
	j) Temperature of decomposition (°C):	Not specified			
	k) pH (23 °C)	8,0 - 10,0			
	I) Kinematic viscosity:	Not specified			
	m) Solubility (23 °C)				
	- with water:	unlimited miscibility			
	- with fats:	Not specified			
	n) Partition coefficient n - octanol/water:	Not specified 2,3 kPa			
	o) Steam pressure (20 °C):				
	p) Density and/or relative density (20 °C):	approximately 1,38 g.cm ⁻³			
	q) Relative viscosity of steam (at °C):	Not specified			
	r) Particles characteristics:	Not specified			
9.2	Other information:	·····			
9.2.1	Information about class of physical hazard:	is not relevant			
9.2.2	Other safety characteristics				
0.2.2	Evaporation rate:	Not specified			
	Dynamic viscosity:	Not specified			
	Explosive properties:	Not specified			
	Oxidizing properties:	Not specified			
	VOC (g/L):	7			
10.	Section 10: Stability and reactivity				
	Product is stable under recommended storage and handling condition	tions			
10.1	Reactivity: Product is not reactive under recommended storage and				
		-			
10.2	 0.2 Chemical stability: Product is stable under recommended storage and handling conditions. 0.3 Possibility of hazardous reactions: In case of contact with substances reacting dangerously with water. 				
	-				
10.4 Conditions to avoid: Temperatures below 0 °C and above 100 °C cause degradatio temperature reduce life of the product.		ause degradation of the product. Temperatures above recommended storag			
10.5	Incompatible materials: Substances reacting with water.				
10.6	Hazardous Decomposition Products: Carbon monoxide and dioxide	e and carbon black may form during burning.			
11.	Section 11: Toxicological information				
11.1	Information about hazard classes acording to (ES) č. 1272/2008				
	a) acute toxicity:	the classification cirteria are not met based on avilable information			
	- LD ₅₀ , oral, rat (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information			
	- LD ₅₀ , dermal, rat or rabbit (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information			
	- LC ₅₀ , inhalation, rat, for aerosols or particles (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information			
	- LC ₅₀ , inhalation, rat, for gases and vapours (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information			

	b) corrosivity/skin irritation:	the classification cirteria are not m	et based on avilable informatio
	c) serious eye damage / eyes irritation:	the classification cirteria are not m	
	d) sensitivity of airways / sensitivity of skin:	May cause an allergic skin reaction	
	e) germ cells mutagenicity:	the classification cirteria are not m	
	f) carcinogenicity:	the classification cirteria are not m	
	g) toxicity for reproduction:	the classification cirteria are not m	
	h) toxicity for specific organs - single exposure:	the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information	
	i) toxicity for specific organs - multiple exposures:		
	j) hazards while inhaled:	the classification cirteria are not m	
	Human experience:	No detrimental effects were found prescribed safety measures.	
	Tests on animals:	Were not performed	
11.1.1	Information for each hazard class or breakdown:	see above	
11.1.2	Toxicological properties of mixture	not avilable	
11.1.3	If enough information from substance/mixture trials exist, it might be necessary to sum up results of used studies, for example according to exposure run	not relevant	
11.1.4	If the classification criteria are not met for specific hazard class, information explaining the justification should be stated.	relevant concentration limits were	not exceeded
11.1.5	Information about likely exposure run	no effects on human health are kn	own
11.1.6	Symptoms corresponding to physical, chemical and toxicological features	no effects on human health are kn	own
11.1.7	Belated and immediate effects and chronical effects of short/long term exposure	no effects on human health are kn	own
11.1.8	Interactive effects	unknown	
11.1.9	Lack of specific data	not relevant	
	Mixtures	see part 8	
11.1.1	Mixtures information compared to substance information	·	
	 Substances in the mixture can react with each other inside of a body ar It is necessary to consider, if concentration of each substance is sufficient a) if the information are doubled, they are listed only once for a substance as a whole, for example when two different substances are causing vomiting and diarrhea; 	is sufficient to contributeto mixture's effects on health. For each substance Not relevant for this mixture. es are	
	b) if it is not likely the effects will appear with current concentrations, for example when weak irritating substance is disolved in non-irritating	Not relevant for this mixture.	
	solution to a level under certain concentration;		
	solution to a level under certain concentration;c) if the information about mutual effects of substances in the mixture are unavilable, no assumptions will be listed and instead effects on healtf of each substance will be listed.	see part 8	
11.1.12	c) if the information about mutual effects of substances in the mixture are unavilable, no assumptions will be listed and instead effects on healtf of	see part 8 None	
	c) if the information about mutual effects of substances in the mixture are unavilable, no assumptions will be listed and instead effects on healtf of each substance will be listed.		
11.2	c) if the information about mutual effects of substances in the mixture are unavilable, no assumptions will be listed and instead effects on healtf of each substance will be listed. Other information		
11.2 11.2.1	 c) if the information about mutual effects of substances in the mixture are unavilable, no assumptions will be listed and instead effects on health of each substance will be listed. Other information Other hazards information 	None	
11.2 11.2.1 11.2.2 12.	c) if the information about mutual effects of substances in the mixture are unavilable, no assumptions will be listed and instead effects on healtf of each substance will be listed. Other information Other hazards information Features causing disruption of endocrinal systém Additional data: Section 12: Ecological information	None Not relevant for this mixture. None	
11.2 11.2.1 11.2.2 12. 12.1	c) if the information about mutual effects of substances in the mixture are unavilable, no assumptions will be listed and instead effects on healtf of each substance will be listed. 13.1 Methods of waste management:

(a) Appropriate methods of disposal of the substance or mixture and contaminated packaging: Risk of environmental contamination, follow the Waste Act (as amended) and the applicable Waste Disposal Regulations (as amended). Place the unused product and contaminated packaging in marked waste collection containers and hand it over for disposal to an authorised waste disposal person (specialised company) authorised to do so. Do not dispose of unused product down the drain. It must not be disposed of with municipal waste. Empty packaging may be used for energy recovery in a waste incinerator (except for metal) or disposed of in a landfill of the appropriate classification. Completely cleaned packaging may be handed over for recycling. Always comply with the relevant national legislation!

Translated with www.Deepl_com/Translator (free version) b) Physical / chemical properties that can affect means of waste handling: Liquid mixture is completely miscible with water.

c) Avoidance of disposal through sewer: It is necessary to prevent leakage of both components and hardened mixture into drains.

d) Special precautions for the recommended waste management: Avoid contact with skin and eyes.

14.5	Environn	nental hazards:	Not specified		
14.6	Special p	precautions for user:	See Section 8		
	Special p	provisions (ADR):	Not specified		
14.7	• •	ass-transport according to instrumenst IMO:	Not applicable		
	Notes:		None		
	Addition	al data:	None		
15.	Section	15: Regulatory information			
15.1	Safety, h	nealth and environmental regulations/legislation specific	for the substance or mixture.		
	Regulation of the European Parliament and Council Regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Authorisation and				
	Restriction of Chemicals establishing a European Chemicals Agency, as amended				
	Regulation of the European Parliament and Council Regulation (EC) No 1272/2008 (CLP) as amended				
		Commision directive (EU) No. 878/2020			
		ances Hazardous to Health Regulations (as amended)	ed 2011). Containing the list of workplace exposure limits for use with the Control		
15.2		nent chemical safety of mixture:	Were not performed		
10.2	7100000011				
16.	Section	16: Other informations			
10.	Section 16: Other Informations Information stated in this safety data sheet is based on the current knowledge of EU legislation. It is recommendation in terms of health and				
	safety as well as recommendation related to ecological matters that are essential to safe usage of the product.				
	· · · · · · · · · · · · · · · · · · ·				
	a) New edition.				
	b) key or legend for abbreviations and accronyms used in the safety data sheet:				
	LD_{50} The lethal dose for 50 % mortality of the test population relative to a control sample.				
	LC ₅₀	Lethal concentration for 50 % mortality of the test po	opulation relative to a control sample.		
	EC_{50} Effective concentration for 50 % mortality of the test population relative to a control sample.				
	EC_{10} Effective concentration for 10 % mortality of the test population relative to a control sample.				
	IC_{50} Inhibitory concentration to reduce the growth or growth rate of 50% of the test population relative to a control sample.				
	LL ₅₀				
	EL ₅₀	Effective loading doses of test substance resulting in	-		
	PBT	Persistent, bioaccumulative and toxic substances.			
	vPvB	Very persistent and very bioaccumulative substances	S.		
	DNEL Derived No Effect Level - derived concentration of the substance without adverse effects				
	DMEL				

DMEL Derived Minimum Effect Level - derived minimum level at which the adverse effects

L

NOAEL No Observed Adverse Effect Level - no negative effect was observed

PNEC Predicted No Effect Concentration - an estimate of the concentration of the substance without adverse effects

NOELR No Observed Effect Loading Rate - dosage rate without observed effect

NOEC No Observed Effect Concentration - concentration without observed effect

NOEL No Observed Effect Level - level without observed effect

LOEC Lowest Observed Effect Concentration - lowest concentrations with observable effects

ADR European Agreement concerning the international carriage of dangerous goods by road.

RID Regulations concerning the international carriage of dangerous goods by rail.

IMDG International maritime code of dangerous goods.

ICAO The International Civil Aviation Organization.

IATA International Air Transport Association.

GHS Globally Harmonized System of Classification and Labelling of Chemical substances.

c) important references to literature and data sources

Initial data sources are safety data sheets of the inherent (components).

d) in case of mixture, statement about evaluation method used for classification according to article 9 of directive (ES) number 1272/2008

For evaluation purposes, principles of extrapolation were used. Calculation methods.

e) List of H-sentences, whose full form is not listed in other parts.

H301	Toxic if swallowed.
H302	Harmful if swallowed.
H310	Fatal in contact with skin.
H311	Toxic in contact with skin.
H314	Causes severe skin burns and eye damage.
H315	Causes skin irritation.
H317	May cause an allergic skin reaction.
H318	Causes serious eye damage.
H319	Causes serious eye irritation.
H330	Fatal if inhaled.
H400	Very toxic to aquatic life.
H410	Very toxic to aquatic life with long lasting effects.
H411	Toxic to aquatic life with long lasting effects.
H412	Harmful to aquatic life with long lasting effects.
EUH071	Causes burns to the respiratory tract.

Guidelines for training:

As required by national legislation.

Recommended restrictions on use (i. e. non-statutory recommendations by supplier):

Product should not be used for other purposes than specified (see section 1.2). Because specific conditions of use are beyond supplier's control it is responsibility of the user to adapt notifications to local law and regulations. Safety information describe the product with regard to safety and can not be considered technical information about the product.
